Transit ridership surges throughout Bay Area
AllVoices | 08/11/11 20:53

And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door. In a remarkable turnaround for transit agencies that have repeatedly slashed services, raised fares and lost state and federal funding, transit ridership is steadily rising throughout the Bay Area. Transit ridership surges throughout Bay Area And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door .

Transit ridership surges throughout Bay Area
AllVoices | 08/11/11 20:53

And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door. In a remarkable turnaround for transit agencies that have repeatedly slashed services, raised fares and lost state and federal funding, transit ridership is steadily rising throughout the Bay Area. Transit ridership surges throughout Bay Area And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door .

Transit ridership surges throughout Bay Area
AllVoices | 08/11/11 20:53

And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door. In a remarkable turnaround for transit agencies that have repeatedly slashed services, raised fares and lost state and federal funding, transit ridership is steadily rising throughout the Bay Area. Transit ridership surges throughout Bay Area
AllVoices | 08/11/11 20:53

And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door. In a remarkable turnaround for transit agencies that have repeatedly slashed services, raised fares and lost state and federal funding, transit ridership is steadily rising throughout the Bay Area. Transit ridership surges throughout Bay Area And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door .

Transit ridership surges throughout Bay Area
AllVoices | 08/11/11 20:53

And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door. In a remarkable turnaround for transit agencies that have repeatedly slashed services, raised fares and lost state and federal funding, transit ridership is steadily rising throughout the Bay Area. Transit ridership surges throughout Bay Area And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door .

Transit ridership surges throughout Bay Area
AllVoices | 08/11/11 20:53

And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door. In a remarkable turnaround for transit agencies that have repeatedly slashed services, raised fares and lost state and federal funding, transit ridership is steadily rising throughout the Bay Area. Transit ridership surges throughout Bay Area And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door .

Possible BART protest today
Business Journals | 08/11/11 03:37

BART said protests may disrupt service today. A notice on BART's website said: "Protests may disrupt service as early as Thurs. Aug. 11. Please be advised that protesters may attempt to disrupt train service during August commute periods beginning as early as Thursday August 11 2011 in downtown San ...why it suspects protests. But some protestors have been upset about a BART police officer fatally shooting a knife-wielding man on July 3. That...

Rumored protests at BART, Muni in San Francisco stall out
San Francisco Examiner | 08/12/11 01:26

The commute home Thursday went off without a hitch despite rumors that BART
service could be disrupted. The transit agency had issued a warning earlier in
the day to alert passengers of a potential protest at the Civic Center station
that was set to begin at 5 p.

Rumored protests at BART, Muni in San Francisco stall out
San Francisco Examiner | 08/12/11 01:26

The commute home Thursday went off without a hitch despite rumors that BART service could be disrupted. The transit agency had issued a warning earlier in the day to alert passengers of a potential protest at the Civic Center station that was set to begin at 5 p.

...had said they would not tolerate future protests. Hill was shot by BART police July 3. People also are still upset about the officer-involved ...

Rumored protests at BART, Muni in San Francisco stall out
San Francisco Examiner | 08/12/11 01:26

The commute home Thursday went off without a hitch despite rumors that BART
service could be disrupted. The transit agency had issued a warning earlier in
the day to alert passengers of a potential protest at the Civic Center station
that was set to begin at 5 p.

Transit ridership surges throughout Bay Area
AllVoices | 08/11/11 20:53

And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door. In a remarkable turnaround for transit agencies that have repeatedly slashed services, raised fares and lost state and federal funding, transit ridership is steadily rising throughout the Bay Area. Transit ridership surges throughout Bay Area And when he transferred onto a Muni bus at 4th and King streets, he barely made it inside the door .

Rumored protests at BART, Muni in San Francisco stall out
San Francisco Examiner | 08/12/11 01:26

The commute home Thursday went off without a hitch despite rumors that BART
service could be disrupted. The transit agency had issued a warning earlier in
the day to alert passengers of a potential protest at the Civic Center station
that was set to begin at 5 p.

Rumored protests at BART, Muni in San Francisco stall out
San Francisco Examiner | 08/12/11 01:26

The commute home Thursday went off without a hitch despite rumors that BART
service could be disrupted. The transit agency had issued a warning earlier in
the day to alert passengers of a potential protest at the Civic Center station
that was set to begin at 5 p.

Subject: Questions about BART's decision to shut off cell phone service
Thursday evening
Date: 8/12/2011 12:33:36 PM

Dear Board of Directors,

I am a lecturer in the journalism department at SF State and an 8-year resident of San Francisco. I rely solely on public transportation, primarily Muni and BART, to travel in the Bay Area. This morning I learned from the Bay Citizen that someone at BART shut down cell phone service in order to thwart a possible protest at the Civic Center station:

<http://www.baycitizen.org/blogs/pulse-of-the-bay/bart-cut-cell-service-foil-protest/>

If true, would you agree that this action was an unacceptable and outrageous abuse of power?

I would like to know:

- Who made the decision to shut down service
- How they did it
- Whether BART has plans to do this again in the future
- If BART understands that such actions could inspire even bigger and more frequent protests?

Thank you,

Justin Beck

Subject: questions

To BART Board Of Directors,

We are writing this email to have some questions answered, please get back to us as we are concerned for the rights of people and the well being of fellow citizens.

1. Did you shut off cell service in the stations with the well being of fellow citizens in mind?
2. If an elderly person is in danger, how will they contact emergency services?
3. Why do you see protesters as a danger, the people have a right to protest?

4. Cutting off cell phones doesnt only endanger you intended targets, but they endanger the lives of everyone who uses that station, do you not believe that this will incite a riot?

5. Censoring people will eventually lead to a riot since they cannot organize nor keep safe, so if this turns into a riot wwill you be willing to take full responsibility?

I would like to have answers to these questions in a timely manner. Thank you and have a nice day o_O

Dear Mr. Duron,

Thank you, I have read the statement already, but you still haven't answered all of my questions. I would like to know:

- Who at BART made the decision to shut down cell phone service?
- Does BART have plans to do this for any future protests?
- Does BART understand that such actions could inspire even bigger and more frequent protests?

I have another question: What do you think about the viral reaction that's happening on Twitter right now? For example, see the hashtags #BART, #MuBARTek and #OpBART. Anonymous says it's planning something called #OpBART. Are you aware of this?

Thanks,

Justin

Subject: Re: Questions about BART's decision to shut off cell phone service
Thursday evening

Dear Mr. Duron,

Thank you, I have read the statement already, but you still haven't answered all of my questions. I would like to know:

Who at BART made the decision to shut down cell phone service?

Does BART have plans to do this for any future protests?

Does BART understand that such actions could inspire even bigger and more frequent protests?

I have another question: What do you think about the viral reaction that's happening on Twitter right now? For example, see the hashtags #BART, #MuBARTek

and #OpBART. Anonymous says it's planning something called #OpBART. Are you aware of this?

Thanks,

Justin

To BART Board Of Directors,

We are writing this email to have some questions answered, please get back to us as we are concerned for the rights of people and the well being of fellow citizens.

1. Did you shut off cell service in the stations with the well being of fellow citizens in mind?
2. If an elderly person is in danger, how will they contact emergency services?
3. Why do you see protesters as a danger, the people have a right to protest?
4. Cutting off cell phones doesnt only endanger you intended targets, but they endanger the lives of everyone who uses that station, do you not believe that this will incite a riot?
5. Censoring people will eventually lead to a riot since they cannot organize nor keep safe, so if this turns into a riot wwill you be willing to take full responsibility?

I would like to have answers to these questions in a timely manner. Thank you and have a nice day o_O

Subject: Censorship

Hello,

Today BART for the first time is known US history censored cellular data by turning the systems off to prevent a protest. This is a horrible idea to even consider, and hopefully you will reconsider ever using such methods again. Putting lives at risk by disabling cellular phones, censoring free speech, and who knows what else is just not what this country stands for.

I am horrified by this, and hope BART learns.

Justin

Subject: California Public Records Act request - mobile service interruption

Dear all,

Please consider this email a request under the California Public Records Act (Government Code Section 6250-6276.48).

I am requesting electronic/scanned or faxed copies of the following records:

- The most recent edition of applicable BART policy regarding BART response to civil disturbances, protests or demonstrations. This includes any applicable policy on how to respond via public relations and law enforcement.

- Any and all written communications or records of non-written communications made between July 3, 2011 and August 12, 2011, between members of the BART Board of Directors, BART public relations employees, Linton Johnson and/or BART police employees regarding a planned protest on August 11, 2011 or

any other date.

None of these records should be exempt from disclosure under the CPRA. If you determine that one or more records should be exempt, please explain in writing how you came to that determination. If there's anything I can do to assist your response to the request or clarify my request, please let me know.

Best,
Evan Hill

Subject: questions

To BART Board Of Directors,

We are writing this email to have some questions answered, please get back to us as we are concerned for the rights of people and the well being of fellow citizens.

1. Did you shut off cell service in the stations with the well being of fellow citizens in mind?
2. If an elderly person is in danger, how will they contact emergency services?
3. Why do you see protesters as a danger, the people have a right to protest?
4. Cutting off cell phones doesn't only endanger your intended targets, but they endanger the lives of everyone who uses that station, do you not believe that this will incite a riot?
5. Censoring people will eventually lead to a riot since they cannot organize nor keep safe, so if this turns into a riot will you be willing to take full responsibility?

I would like to have answers to these questions in a timely manner. Thank you and have a nice day o_O

Subject: Questions about BART's decision to shut off cell phone service
Thursday evening

Dear Board of Directors,

I am a lecturer in the journalism department at SF State and an 8-year resident of San Francisco. I rely solely on public transportation, primarily Muni and BART, to travel in the Bay Area. This morning I learned from the Bay Citizen that someone at BART shut down cell phone service in order to thwart a possible protest at the Civic Center station:

<http://www.baycitizen.org/blogs/pulse-of-the-bay/bart-cut-cell-service-foil-protest/>

If true, would you agree that this action was an unacceptable and outrageous abuse of power?

I would like to know:

Who made the decision to shut down service

How they did it

Whether BART has plans to do this again in the future

If BART understands that such actions could inspire even bigger and more frequent protests?

Thank you,

Justin Beck

Dear Mr. Duron,

Thank you, I have read the statement already, but you still haven't answered all of my questions. I would like to know:
Who at BART made the decision to shut down cell phone service?
Does BART have plans to do this for any future protests?
Does BART understand that such actions could inspire even bigger and more frequent protests?
I have another question: What do you think about the viral reaction that's happening on Twitter right now? For example, see the hashtags #BART, #MuBARTek

and #OpBART. Anonymous says it's planning something called #OpBART. Are you aware of this?

Thanks,

Justin

Subject: Fw: Questions about BART's decision to shut off cell phone service
Thursday evening
Date: 8/12/2011 3:56:10 PM

Good Afternoon Mr. Beck,

Thank you for providing the attached information. In response to your specific questions, the Incident Commander, Deputy Chief Ben Fairow, made the decision to temporarily interrupt WiFi service (after vetting the idea through various BART/PD officials). Also, please be aware that BART PD does not publicly discuss tactical and/or operational plans; however, we are committed to maintaining the security/safety of our commuters. To this end, we will continue to utilize law enforcement best practices, tools, and innovative ideas, within the strict guidelines of the law, to accomplish our goal.

BART fully supports free speech and other constitutionally-protected behavior/activities. It is our intent that individuals who seek to express themselves, do so in a safe and legal manner, within the areas made available for this type of activity. With this being said, BART PD will take action to prevent and/or abort any behaviors/activities that do not fall within the aforementioned parameters.

Furthermore, we do not believe that BART PD's response to unsafe and lawless activities encourages further lawless/unsafe behavior. It is clear that those individuals who are engaged in this activity have no intention of expressing themselves in a safe and legal manner. Proof positive of this fact occurred recently, when protesters were allowed to demonstrate on the BART platform. Instead of simply doing so, protestors proceeded to act in an unsafe, illegal manner which jeopardized the safety and security of the entire BART ridership present at the various locations. So, while the demonstrations may get "bigger and more frequent," our primary goal will be to ensure that they are carried out safely and legally.

Thank you for sharing your expressed concerns, and we hope that you continue to choose BART.

Subject: Fw: Questions about BART's decision to shut off cell phone service
Thursday evening

Good Afternoon Mr. Beck,

Thank you for providing the attached information. In response to your specific questions, the Incident Commander, Deputy Chief Ben Fairow, made the decision to temporarily interrupt WiFi service (after vetting the idea through various BART/PD officials). Also, please be aware that BART PD does not publicly discuss tactical and/or operational plans; however, we are committed to maintaining the security/safety of our commuters. To this end, we will continue to utilize law enforcement best practices, tools, and innovative ideas, within the strict guidelines of the law, to accomplish our goal.

BART fully supports free speech and other constitutionally-protected behavior/activities. It is our intent that individuals who seek to express themselves, do so in a safe and legal manner, within the areas made available for this type of activity. With this being said, BART PD will take action to prevent and/or abort any behaviors/activities that do not fall within the aforementioned parameters.

Furthermore, we do not believe that BART PD's response to unsafe and lawless activities encourages further lawless/unsafe behavior. It is clear that those individuals who are engaged in this activity have no intention of expressing themselves in a safe and legal manner. Proof positive of this fact occurred recently, when protesters were allowed to demonstrate on the BART platform. Instead of simply doing so, protestors proceeded to act in an unsafe, illegal manner which jeopardized the safety and security of the entire BART ridership present at the various locations. So, while the demonstrations may get "bigger and more frequent," our primary goal will be to ensure that they are carried out safely and legally.

Thank you for sharing your expressed concerns, and we hope that you continue to

choose BART.

Thursday evening

Dear Mr. Duron,

Thank you, I have read the statement already, but you still haven't answered all of my questions. I would like to know:

Who at BART made the decision to shut down cell phone service?

Does BART have plans to do this for any future protests?

Does BART understand that such actions could inspire even bigger and more frequent protests?

I have another question: What do you think about the viral reaction that's happening on Twitter right now? For example, see the hashtags #BART, #MuBARTek

and #OpBART. Anonymous says it's planning something called #OpBART. Are you aware of this?

Thanks,

Justin

Subject: Questions about BART's decision to shut off cell phone service
Thursday evening

Dear Board of Directors,

I am a lecturer in the journalism department at SF State and an 8-year resident of San Francisco. I rely solely on public transportation, primarily Muni and BART, to travel in the Bay Area. This morning I learned from the Bay Citizen that someone at BART shut down cell phone service in order to thwart a possible protest at the Civic Center station:

<http://www.baycitizen.org/blogs/pulse-of-the-bay/bart-cut-cell-service-foil-protest/>

If true, would you agree that this action was an unacceptable and outrageous abuse of power?

I would like to know:

- Who made the decision to shut down service
- How they did it
- Whether BART has plans to do this again in the future
- If BART understands that such actions could inspire even bigger and more frequent protests?

Thank you,

Justin Beck

Friday, August 12, 2011 (SF Chronicle)
BART admits halting cell service to stop protests
Michael
Cabanatuan, Chronicle Staff Writer

BART's shut-off of subterranean cell phone service in its downtown San Francisco stations may have prevented a protest Thursday, but it sparked accusations Friday that the action stifled free speech and smacked of the kind of government intrusion employed by Middle East dictators.

"All over the world, people are using mobile devices to protest oppressive regimes, and governments are shutting down cell phone towers and the Internet to stop them," said Michael Risher, a staff attorney for the American Civil Liberties Union of Northern California. "It's outrageous that in San Francisco, BART is doing the same thing."

BART officials acknowledged Friday afternoon that they had switched off the transit system's underground cell phone network, which runs from Balboa Park Station through the Transbay Tube, from 4 to 7 p.m. Thursday to prevent protesters from coordinating plans to stop trains.

A cluster of groups under the "No Justice, No BART" banner said on websites that they planned to protest the fatal July 3 shooting of a knife-wielding man, Charles Blair Hill, by BART police. Protesters briefly shut down the Civic Center, Powell Street and 16th Street Mission stations July 11. Trains ran through the stations without stopping.

"Organizers planning to disrupt BART service stated they would use mobile devices to coordinate their disruptive activities and communicate about the location and number of BART Police," the transit agency said. "A civil disturbance during commute times at busy downtown San Francisco stations could lead to platform overcrowding and unsafe conditions for BART customers, employees and demonstrators." A 'recipe for disaster'

Contrary to some speculative reports, BART did not jam wireless signals or ask cell phone providers to shut down towers near stations. BART owns and controls the wireless network strung through its subways, and BART police ordered it switched off, after receiving permission from BART interim General Manager Sherwood Wakeman, former general counsel for the transit district.

Benson Fairow, BART's deputy police chief, said he decided to switch off the service out of concern that protesters on station platforms could clash with commuters, create panicked surges of passengers, and put themselves or others in the way of speeding trains or the high-voltage third rails.

"It was a recipe for disaster," he said. "The fact that they started to conspire to commit illegal actions on the station platform was our concern. I asked myself: If my wife, mother or daughter was on that platform, would I want them to be in that situation?"

Civil libertarians questioned the constitutionality of BART's decision, and predicted legal action, or at least serious investigation by the Federal Communications Commission.

"The most pertinent right in question is the right to free expression," said Kevin Bankston, senior staff attorney for the Electronic Frontier Foundation, a digital rights advocacy group. "BART makes the point that a few years ago you couldn't even use your cell phone in the stations, but that's beside the point. At this point, they have made a policy of allowing it on the platform.

"To withdraw that ability to express yourself ... under a desire to prevent particular political speech between protesters was a shocking disregard of the free speech rights of every BART passenger and, indeed, was a prior restraint on any expressive activity they would otherwise have engaged in." Question of control

While BART owns and controls the wireless network in its tunnels, it might not have the right to shut it off to halt a protest, ACLU's Risher said.

"Once BART opens a forum for expression, their authority to close it down becomes a little more limited," he said. "As far as I know, no governmental entity in this country has ever done anything like this."

BART spokesman Jim Allison said this was the first time the transit agency shut down the underground wireless system because of public safety concerns.

Fairow said that BART considered the free speech implications posed by the cell phone shutdown but decided that those rights were outweighed by the need to protect the public.

"It's the constant juggle," he said. "The courts have ruled that some inconvenience is OK (to protect free speech) but the courts have also ruled that public safety takes priority."

BART allows free speech - from protesting to proselytizing - outside the paid areas of stations. But it's not suitable inside the fare gates, and especially on the train platforms, he said.

But even some BART riders thought the tactic seemed very un-Bay Area.

"We don't want the government turning off cell phones in Syria, and we don't want them turning off cell phones here," said Patricia Shean, 72, of San Francisco. "We deal with things differently here."

Chronicle staff writer James Temple contributed to this report.

Dear Ken

We the people of California are angry that BART turned off cellphone service, angering passengers and raising questions about First Amendment rights in the age of social media protests. We have the right to network, assemble and communicate, for life, liberty and the pursuit of happiness would be impossible without them. We feel the pain and anger of the demonstrators who were protesting the July 3 shooting of Charles Blair Hill by BART police, who lied like a rug and claimed Hill came at them with a knife. How would you feel if your family were killed by BART? We demand that heads roll and the cops who were involved be prosecuted and do time without benefits or pension because cops do not have license to kill. BART must retrain all its cops to treat the poor, homeless, drunk and people of color as if they were jews. This is the solution to the problem of police brutality and racial profiling. You don't kill unarmed civilians, then lie, file false charges or plant weapons, and then have the chutzpah to cut off cellphone and internet to stop all protests like in Egypt. Indeed, we demand that all cops undergo lie detector tests and be injected truth serum after any killing for they would like lie like hell to cover their asses.

On July 3, 2011, at 9:45 p.m., a 45-year-old scruffy looking white man Charles Blair Hill, described ad nauseam by the media as a "wobbly drunk" and a "crazy hippy" - met a violent fate on a San Francisco Civic Center BART platform at the hands of two BART thugs in blue, one white and one Asian. Three bullet casings were recovered on the platform, and Charles was declared dead at San Francisco General Hospital an hour later. Merely BARTing while homeless and possibly intoxicated has now become a death sentence on the street in the home of the brave and the land of the free. We the American people will not stay silent on any BART police killings! Eight days later, on July 11, in commemoration of Charles' stolen life at the hands of BART police, a crowd of 200 civil rights protesters <http://www.mercurynews.com/breaking-news/ci_18456050> of all races, ages and economic backgrounds descended en masse to the Civic Center BART platform where Charles was executed like a rabid dog. They met a barrage of hundreds of cops in full riot gear - some flanked with huge K9 dogs, pre-civil rights style - while they chanted: "No justice, no peace! Cops, pigs, dismantle the BART police!" We the people must tell you this is the fifth BART police killing where all have been people of color with the exception of Charles Hill.

<http://previous.presstv.ir/photo/20110813/javadi20110813114739060.jpg>

<<http://sfbayview.com/wp-content/uploads/2011/07/Civic-Center-BART-protest-Charles-Hill-cop-killing-071111-2-by-Aric-Crabb-SJ-Mercury-News.jpg>>

In the previous cases, BART's internal investigations wrongfully concluded that the officers felt threatened by the victims and were justified in pulling the trigger. That excuse is unbelievable given the circumstances of the killings:

1. In 1992, 19-year-old African American Jerrold Hall - only son of Cornelius Hall, who at the time was the fire chief of Oakland - was shot in the back by a BART officer as he tried to leave the parking lot of a station. The officer was responding to reports of an armed robbery and said he suspected that Hall and a friend were involved. The officer tried to detain the two. Hall ran, and the officer shot him in the back and killed him. Hall was unarmed, but the officer said he thought Hall was on his way to get a gun and return for a showdown. Jerrold's assassin later committed suicide.

2. In 1997, Robert Greer died from an alleged "fall" after being taken into BART police custody.

3. In 2001, an African American schizophrenic man, Bruce Seward, was the next victim of the rogue force. Seward, 42, was naked and had been sleeping on a bench outside the BART station when an officer approached him. Seward had grabbed the officer's nightstick at one point and there were several options for subduing him, but instead, the officer shot and killed him. In an archived audiotape of that homicide investigation, the investigator asks the BART officer, "So, you felt you had to kill the suspect?" The cop replies, "Dunno, he just had this look on his face like he wanted me to shoot him."

4. On Jan. 1, 2009, an African American youth, Oscar Grant, was assassinated while already handcuffed and lying face down on the platform by BART officer Johannes Mehserle, who was released from custody on June 12, 2011, for "good behavior" following a substantial reduction of his incarceration for time already served from his indictment to the trial.

5. In July 17, 2010, BART police killed another African American man at the Fruitvale station, where they had killed Oscar Grant the previous year. He was identified as Fred Collins, 48, and initially described by BART as "Hispanic looking." Witnesses watching from their windows said Collins was walking backwards with his hands up when he fell in a hail of bullets shot by at least five cops; 15 or more were reportedly on the scene.

We must tell you that the killing endangered the lives of innocent bystanders, and we demand BART police to serve and protect, not kill and then lie and cover up afterward like business-as-usual. A BART commuter said after seeing Charles' photo in SF Gate, the website for the San Francisco Chronicle: "Dear God! I knew him! I used to give him quarters all the time - sweet guy, he would not have hurt a fly!"

A young black man jumped fare at South Hayward BART as he was late to go pick up his newborn baby from childcare. Four BART cops brought him to the ground and started hitting him with sticks. One was recording and kept yelling, "Nigger, say you wanna die! You know you wanna die; say it, nigger," at him so that he could become yet another "Black suicide by cop." There were witnesses on the platform. The young brother started screaming: "No! My wife and I just had a beautiful baby boy. I don't wanna die! Someone PLEASE call the police, the REAL police!" The BART cops gave him a citation and let him go. He and his wife were so shaken by the occurrence that they

had 2 emergency counseling sessions and an interactive "Know Your Rights" seminar with the entire family. We demand BART reforms now, with a new chief to clean house, bad cops arrested and prosecuted for their crimes.

It is a tragedy that commuters' upset is more important than a stolen, anonymous life. The corporate media whines on and on about the major delays and "distress" incurred as a result of the Stolen Lives protest <http://www.youtube.com/watch?v=apYrnMUmIAc> at the Civic Center BART Station July 11 by the commuters who were trying to get home. Why is there NOT a single word of compassion for Charles Hill's grieving family from BART or SF officials? We must remind you that alcohol is a legal drug, and alcoholism is an illness, a disability, not a crime! This is another wasted, stolen life - white this time, to the immense relief of law enforcement in that it dilutes allegations of longstanding illegal, racially biased policing. This won't fool us since it is now obvious to the American people that on the BART plantation, the poor, drunk, black, brown, yellow and the homeless are all the niggers of our world.

The message from this killing is Don't drink and BART if you want to live. We demand to know how a distraught subject with unsteady balance could possibly "lunge" at an officer, allegedly with a broken vodka bottle in one hand and a knife in the other, without falling down in the process? The American people already know that cops lie all the time so why don't BART just come clean, pay and say sorry? Even a female disabled elder would have no difficulty in quickly bringing to the ground any large aggressor with her cane. Police trainers advocate that one should not merely impair the fine motor skills of a subject while bringing him safely to the ground, hence protecting the subject from harming him or herself or nearby onlookers, but should always shoot at center mass. That is what was taught for 15 weeks at SFPD Academy citizens' training. What happened with the much praised Crisis Intervention Training (CIT) modeled after the Memphis Police Department training?

A witness to the killing says that BART officers should absolutely not have shot Charles Hill. While Hill was noticeably intoxicated, the 45-year-old man wearing a tie-dyed shirt and military fatigues was definitely not running or lunging towards the officers. He was moving like Frankenstein and nobody saw any knife. Despite holding press conferences about the killing, BART has yet to explain why the two officers, who are currently on paid leave, chose to shoot Hill, rather than pursuing another course of action like using batons or muscle. BART must be as transparent as possible in this process, and must release the names of the police officers involved. BART must release security footage of the incident now, and not wait until they've completed interviews with all 40 witnesses because this is a license for stalling or doctoring. The tape provides an accurate objective record of what happened, and the interviews should take a matter of days, not weeks or months. A recently released recording http://abclocal.go.com/kgo/story?section=news/local/san_francisco&id=8233814 of the radio transmission between a BART employee and BART police dispatcher only mentions that "the guy with the tie dye" had an open bottle of alcohol and was "moving around a lot." The two unidentified officers opened fire within one minute of their arrival, yet there is no evidence that they knew about a knife beforehand. No Justice, No BART and we the people demand that the BART Board of Directors shut down the corrupt, inept, disgraceful and murderous BART police department and that both officers involved in the shooting are not just fired, but go to prison for murder and denied all benefits and pension.

An injustice to one is an injustice to all, and for the protests to stop, BART must be held to account, and heads must roll. The culture of cops don't have to pay for their crimes is what is wrong with America, and we demand that you fix it NOW so that other cities can follow.

Charles Hill

The decision by BART officials to cut off cellphone service Thursday evening -- to forestall a planned protest -- raises a fundamental question: Do Americans have a basic right to digital free speech or to digitally organized assembly? We the people say YES because this is guaranteed by the Constitution, which is technology agnostic. Temporarily shutting down cell service and beefing up police patrols are NOT the correct answer to this problem caused by BART. We appeal to you not just on legal and social grounds but on economic grounds, as police killing costs the city money with wrongful death lawsuits where the going rate is \$15M to \$20M per victim. We must remind you that back in 2003, Libya was forced to pay \$10M per person for the Lockerbie or Pan Am 103 bombing, and the dollar has been inflated a lot since then so that \$10M is now worth \$20M. When a cop kills, it will cost the city or county at least \$10 million per victim, not to mention criminal investigations by FBI and a DOJ consent decree for 10 years. To regain the public trust, stop all protests and the feds investigating which are justified because of BART police brutality, the correct course of action is a public apology, pay compensation to Hill's family, get a new chief, police reforms, and imprison the 2 murderous cops for being the criminals that they are.

Dear Ken

We the people of California are angry that BART turned off cellphone service, angering passengers and raising questions about First Amendment rights in the age of social media protests. We have the right to network, assemble and communicate, for life, liberty and the pursuit of happiness would be impossible without them. We feel the pain and anger of the demonstrators who were protesting the July 3 shooting of Charles Blair Hill by BART police, who lied like a rug and claimed Hill came at them with a knife. How would you feel if your family were killed by BART? We demand that heads roll and the cops who were involved be prosecuted and do time without benefits or pension because cops do not have license to kill. BART must retrain all its cops to treat the poor, homeless, drunk and people of color as if they were jews. This is the solution to the problem of police brutality and racial profiling. You don't kill unarmed civilians, then lie, file false charges or plant weapons, and then have the chutzpah to cut off cellphone and internet to stop all protests like in Egypt. Indeed, we demand that all cops undergo lie detector tests and be injected truth serum after any killing for they would like lie like hell to cover their asses.

On July 3, 2011, at 9:45 p.m., a 45-year-old scruffy looking white man Charles Blair Hill, described ad nauseam by the media as a "wobbly drunk" and a "crazy hippy" - met a violent fate on a San Francisco Civic Center BART platform at the hands of two BART thugs in blue, one white and one Asian. Three bullet casings were recovered on the platform, and Charles was declared dead at San Francisco General Hospital an hour later. Merely BARTing while homeless and possibly intoxicated has now become a death sentence on the street in the home of the brave and the land of the free. We the American people will not stay silent on any BART police killings! Eight days later, on July 11, in commemoration of Charles' stolen life at the hands of BART police, a crowd of 200 civil rights protesters <http://www.mercurynews.com/breaking-news/ci_18456050> of all races, ages and economic backgrounds descended en masse to the Civic Center BART platform where Charles was executed like a rabid dog. They met a barrage of hundreds of cops in full riot gear - some flanked with huge K9 dogs, pre-civil rights style - while they chanted: "No justice, no peace! Cops, pigs, dismantle the BART police!" We the people must tell you this is the fifth BART police killing where all have been people of color with the exception of Charles Hill.

<http://previous.presstv.ir/photo/20110813/javadi20110813114739060.jpg>

<<http://sfbayview.com/wp-content/uploads/2011/07/Civic-Center-BART-protest-Charles-Hill-cop-killing-071111-2-by-Aric-Crabb-SJ-Mercury-News.jpg>>

In the previous cases, BART's internal investigations wrongfully concluded that the officers felt threatened by the victims and were justified in pulling the trigger. That excuse is unbelievable given the circumstances of the killings:

1. In 1992, 19-year-old African American Jerrold Hall - only son of Cornelius Hall, who at the time was the fire chief of Oakland - was shot in the back by a BART officer as he tried to leave the parking lot of a station. The officer was responding to reports of an armed robbery and said he suspected that Hall and a friend were involved. The officer tried to detain the two. Hall ran, and the officer shot him in the back and killed him. Hall was unarmed, but the officer said he thought Hall was on his way to get a gun and return for a showdown. Jerrold's assassin later committed suicide.

2. In 1997, Robert Greer died from an alleged "fall" after being taken into BART police custody.

3. In 2001, an African American schizophrenic man, Bruce Seward, was the next victim of the rogue force. Seward, 42, was naked and had been sleeping on a bench outside the BART station when an officer approached him. Seward had grabbed the officer's nightstick at one point and there were several options for subduing him, but instead, the officer shot and killed him. In an archived audiotape of that homicide investigation, the investigator asks the BART officer, "So, you felt you had to kill the suspect?" The cop replies, "Dunno, he just had this look on his face like he wanted me to shoot him."

4. On Jan. 1, 2009, an African American youth, Oscar Grant, was assassinated while already handcuffed and lying face down on the platform by BART officer Johannes Mehserle, who was released from custody on June 12, 2011, for "good behavior" following a substantial reduction of his incarceration for time already served from his indictment to the trial.

5. In July 17, 2010, BART police killed another African American man at the Fruitvale station, where they had killed Oscar Grant the previous year. He was identified as Fred Collins, 48, and initially described by BART as "Hispanic looking." Witnesses watching from their windows said Collins was walking backwards with his hands up when he fell in a hail of bullets shot by at least five cops; 15 or more were reportedly on the scene.

We must tell you that the killing endangered the lives of innocent bystanders, and we demand BART police to serve and protect, not kill and then lie and cover up afterward like business-as-usual. A BART commuter said after seeing Charles' photo in SF Gate, the website for the San Francisco Chronicle: "Dear God! I knew him! I used to give him quarters all the time - sweet guy, he would not have hurt a fly!"

A young black man jumped fare at South Hayward BART as he was late to go pick up his newborn baby from childcare. Four BART cops brought him to the ground and started hitting him with sticks. One was recording and kept yelling, "Nigger, say you wanna die! You know you wanna die; say it, nigger," at him so that he could become yet another "Black suicide by cop." There were witnesses on the platform. The young brother started screaming: "No! My wife and I just had a beautiful baby boy. I don't wanna die! Someone PLEASE call the police, the REAL police!" The BART cops gave him a citation and let him go. He and his wife were so shaken by the occurrence that they

Merely BARTing while homeless and possibly intoxicated has now become a death sentence on the street in the home of the brave and the land of the free. We the American people will not stay silent on any BART police killings! Eight days later, on July 11, in commemoration of Charles' stolen life at the hands of BART police, a crowd of 200 civil rights protesters <http://www.mercurynews.com/breaking-news/ci_18456050> of all races, ages and economic backgrounds descended en masse to the Civic Center BART platform where Charles was executed like a rabid dog. They met a barrage of hundreds of cops in full riot gear - some flanked with huge K9 dogs, pre-civil rights style - while they chanted: "No justice, no peace! Cops, pigs, dismantle the BART police!" We the people must tell you this is the fifth BART police killing where all have been people of color with the exception of Charles Hill.

<<http://sfbayview.com/wp-content/uploads/2011/07/Civic-Center-BART-protest-Charles-Hill-cop-killing-071111-2-by-Aric-Crabb-SJ-Mercury-News.jpg>>

In the previous cases, BART's internal investigations wrongfully concluded that the officers felt threatened by the victims and were justified in pulling the trigger. That excuse is unbelievable given the circumstances of the killings:

1. In 1992, 19-year-old African American Jerrold Hall - only son of Cornelius Hall, who at the time was the fire chief of Oakland - was shot in the back by a BART officer as he tried to leave the parking lot of a station. The officer was responding to reports of an armed robbery and said he suspected that Hall and a friend were involved. The officer tried to detain the two. Hall ran, and the officer shot him in the back and killed him. Hall was unarmed, but the officer said he thought Hall was on his way to get a gun and return for a showdown. Jerrold's assassin later committed suicide.

2. In 1997, Robert Greer died from an alleged "fall" after being taken into BART police custody.

3. In 2001, an African American schizophrenic man, Bruce Seward, was the next victim of the rogue force. Seward, 42, was naked and had been sleeping on a bench outside the BART station when an officer approached him. Seward had grabbed the officer's nightstick at one point and there were several options for subduing him, but instead, the officer shot and killed him. In an archived audiotape of that homicide investigation, the investigator asks the BART officer, "So, you felt you had to kill the suspect?" The cop replies, "Dunno, he just had this look on his face like he wanted me to shoot him."

4. On Jan. 1, 2009, an African American youth, Oscar Grant, was assassinated while already handcuffed and lying face down on the platform by BART officer Johannes Mehserle, who was released from custody on June 12, 2011, for "good behavior" following a substantial reduction of his incarceration for time already served from his indictment to the trial.

5. In July 17, 2010, BART police killed another African American man at the Fruitvale station, where they had killed Oscar Grant the previous year. He was identified as Fred Collins, 48, and initially described by BART as "Hispanic looking." Witnesses watching from their windows said Collins was walking backwards with his hands up when he fell in a hail of bullets shot by at least five cops; 15 or more were reportedly on the scene.

We must tell you that the killing endangered the lives of innocent bystanders, and we demand BART police to serve and protect, not kill and then lie and cover up afterward like business-as-usual. A BART commuter said after seeing Charles' photo in SF Gate, the website for the San Francisco Chronicle: "Dear God! I knew him! I used to give him quarters all the time - sweet guy, he would not have hurt a fly!"

A young black man jumped fare at South Hayward BART as he was late to go pick up his newborn baby from childcare. Four BART cops brought him to the ground and started hitting him with sticks. One was recording and kept yelling, "Nigger, say you wanna die! You know you wanna die; say it, nigger," at him so that he could become yet another "Black suicide by cop." There were witnesses on the platform. The young brother started screaming: "No! My wife and I just had a beautiful baby boy. I don't wanna die! Someone PLEASE call the police, the REAL police!" The BART cops gave him a citation and let him go. He and his wife were so shaken by the occurrence that they

had 2 emergency counseling sessions and an interactive "Know Your Rights" seminar with the entire family. We demand BART reforms now, with a new chief to clean house, bad cops arrested and prosecuted for their crimes.

It is a tragedy that commuters' upset is more important than a stolen, anonymous life. The corporate media whines on and on about the major delays and "distress" incurred as a result of the Stolen Lives protest <http://www.youtube.com/watch?v=apYrnMUmIAc> at the Civic Center BART Station July 11 by the commuters who were trying to get home. Why is there NOT a single word of compassion for Charles Hill's grieving family from BART or SF officials? We must remind you that alcohol is a legal drug, and alcoholism is an illness, a disability, not a crime! This is another wasted, stolen life - white this time, to the immense relief of law enforcement in that it dilutes allegations of longstanding illegal, racially biased policing. This won't fool us since it is now obvious to the American people that on the BART plantation, the poor, drunk, black, brown, yellow and the homeless are all the niggers of our world.

The message from this killing is Don't drink and BART if you want to live. We demand to know how a distraught subject with unsteady balance could possibly "lunge" at an officer, allegedly with a broken vodka bottle in one hand and a knife in the other, without falling down in the process? The American people already know that cops lie all the time so why don't BART just come clean, pay and say sorry? Even a female disabled elder would have no difficulty in quickly bringing to the ground any large aggressor with her cane. Police trainers advocate that one should not merely impair the fine motor skills of a subject while bringing him safely to the ground, hence protecting the subject from harming him or herself or nearby onlookers, but should always shoot at center mass. That is what was taught for 15 weeks at SFPD Academy citizens' training. What happened with the much praised Crisis Intervention Training (CIT) modeled after the Memphis Police Department training?

A witness to the killing says that BART officers should absolutely not have shot Charles Hill. While Hill was noticeably intoxicated, the 45-year-old man wearing a tie-dyed shirt and military fatigues was definitely not running or lunging towards the officers. He was moving like Frankenstein and nobody saw any knife. Despite holding press conferences about the killing, BART has yet to explain why the two officers, who are currently on paid leave, chose to shoot Hill, rather than pursuing another course of action like using batons or muscle. BART must be as transparent as possible in this process, and must release the names of the police officers involved. BART must release security footage of the incident now, and not wait until they've completed interviews with all 40 witnesses because this is a license for stalling or doctoring. The tape provides an accurate objective record of what happened, and the interviews should take a matter of days, not weeks or months. A recently released recording http://abclocal.go.com/kgo/story?section=news/local/san_francisco&id=8233814 of the radio transmission between a BART employee and BART police dispatcher only mentions that "the guy with the tie dye" had an open bottle of alcohol and was "moving around a lot." The two unidentified officers opened fire within one minute of their arrival, yet there is no evidence that they knew about a knife beforehand. No Justice, No BART and we the people demand that the BART Board of Directors shut down the corrupt, inept, disgraceful and murderous BART police department and that both officers involved in the shooting are not just fired, but go to prison for murder and denied all benefits and pension.

An injustice to one is an injustice to all, and for the protests to stop, BART must be held to account, and heads must roll. The culture of cops don't have to pay for their crimes is what is wrong with America, and we demand that you fix it NOW so that other cities can follow.

Charles Hill

The decision by BART officials to cut off cellphone service Thursday evening -- to forestall a planned protest -- raises a fundamental question: Do Americans have a basic right to digital free speech or to digitally organized assembly? We the people say YES because this is guaranteed by the Constitution, which is technology agnostic. Temporarily shutting down cell service and beefing up police patrols are NOT the correct answer to this problem caused by BART. We appeal to you not just on legal and social grounds but on economic grounds, as police killing costs the city money with wrongful death lawsuits where the going rate is \$15M to \$20M per victim. We must remind you that back in 2003, Libya was forced to pay \$10M per person for the Lockerbie or Pan Am 103 bombing, and the dollar has been inflated a lot since then so that \$10M is now worth \$20M. When a cop kills, it will cost the city or county at least \$10 million per victim, not to mention criminal investigations by FBI and a DOJ consent decree for 10 years. To regain the public trust, stop all protests and the feds investigating which are justified because of BART police brutality, the correct course of action is a public apology, pay compensation to Hill's family, get a new chief, police reforms, and imprison the 2 murderous cops for being the criminals that they are.

Dear June

We the people of California are angry that BART turned off cellphone service, angering passengers and raising questions about First Amendment rights in the age of social media protests. We have the right to network, assemble and communicate, for life, liberty and the pursuit of happiness would be impossible without them. We feel the pain and anger of the demonstrators who were protesting the July 3 shooting of Charles Blair Hill by BART police, who lied like a rug and claimed Hill came at them with a knife. How would you feel if your family were killed by BART? We demand that heads roll and the cops who were involved be prosecuted and do time without benefits or pension because cops do not have license to kill. BART must retrain all its cops to treat the poor, homeless, drunk and people of color as if they were jews. This is the solution to the problem of police brutality and racial profiling. You don't kill unarmed civilians, then lie, file false charges or plant weapons, and then have the chutzpah to cut off cellphone and internet to stop all protests like in Egypt. Indeed, we demand that all cops undergo lie detector tests and be injected truth serum after any killing for they would like lie like hell to cover their asses.

On July 3, 2011, at 9:45 p.m., a 45-year-old scruffy looking white man Charles Blair Hill, described ad nauseam by the media as a "wobbly drunk" and a "crazy hippy" - met a violent fate on a San Francisco Civic Center BART platform at the hands of two BART thugs in blue, one white and one Asian. Three bullet casings were recovered on the platform, and Charles was declared dead at San Francisco General Hospital an hour later. Merely BARTing while homeless and possibly intoxicated has now become a death sentence on the street in the home of the brave and the land of the free. We the American people will not stay silent on any BART police killings! Eight days later, on July 11, in commemoration of Charles' stolen life at the hands of BART police, a crowd of 200 civil rights protesters <http://www.mercurynews.com/breaking-news/ci_18456050> of all races, ages and economic backgrounds descended en masse to the Civic Center BART platform where Charles was executed like a rabid dog. They met a barrage of hundreds of cops in full riot gear - some flanked with huge K9 dogs, pre-civil rights style - while they chanted: "No justice, no peace! Cops, pigs, dismantle the BART police!" We the people must tell you this is the fifth BART police killing where all have been people of color with the exception of Charles Hill.

Charles Hill

The decision by BART officials to cut off cellphone service Thursday evening -- to forestall a planned protest -- raises a fundamental question: Do Americans have a basic right to digital free speech or to digitally organized assembly? We the people say YES because this is guaranteed by the Constitution, which is technology agnostic. Temporarily shutting down cell service and beefing up police patrols are NOT the correct answer to this problem caused by BART. We appeal to you not just on legal and social grounds but on economic grounds, as police killing costs the city money with wrongful death lawsuits where the going rate is \$15M to \$20M per victim. We must remind you that back in 2003, Libya was forced to pay \$10M per person for the Lockerbie or Pan Am 103 bombing, and the dollar has been inflated a lot since then so that \$10M is now worth \$20M. When a cop kills, it will cost the city or county at least \$10 million per victim, not to mention criminal investigations by FBI and a DOJ consent decree for 10 years. To regain the public trust, stop all protests and the feds investigating which are justified because of BART police brutality, the correct course of action is a public apology, pay compensation to Hill's family, get a new chief, police reforms, and imprison the 2 murderous cops for being the criminals that they are.

Dear Paul

We the people of California are angry that BART turned off cellphone service, angering passengers and raising questions about First Amendment rights in the age of social media protests. We have the right to network, assemble and communicate, for life, liberty and the pursuit of happiness would be impossible without them. We feel the pain and anger of the demonstrators who were protesting the July 3 shooting of Charles Blair Hill by BART police, who lied like a rug and claimed Hill came at them with a knife. How would you feel if your family were killed by BART? We demand that heads roll and the cops who were involved be prosecuted and do time without benefits or pension because cops do not have license to kill. BART must retrain all its cops to treat the poor, homeless, drunk and people of color as if they were jews. This is the solution to the problem of police brutality and racial profiling. You don't kill unarmed civilians, then lie, file false charges or plant weapons, and then have the chutzpah to cut off cellphone and internet to stop all protests like in Egypt. Indeed, we demand that all cops undergo lie detector tests and be injected truth serum after any killing for they would like lie like hell to cover their asses.

On July 3, 2011, at 9:45 p.m., a 45-year-old scruffy looking white man Charles Blair Hill, described ad nauseam by the media as a "wobbly drunk" and a "crazy hippy" - met a violent fate on a San Francisco Civic Center BART platform at the hands of two BART thugs in blue, one white and one Asian. Three bullet casings were recovered on the platform, and Charles was declared dead at San Francisco General Hospital an hour later. Merely BARTing while homeless and possibly intoxicated has now become a death sentence on the street in the home of the brave and the land of the free. We the American people will not stay silent on any BART police killings! Eight days later, on July 11, in commemoration of Charles' stolen life at the hands of BART police, a crowd of 200 civil rights protesters <http://www.mercurynews.com/breaking-news/ci_18456050> of all races, ages and economic backgrounds descended en masse to the Civic Center BART platform where Charles was executed like a rabid dog. They met a barrage of hundreds of cops in full riot gear - some flanked with huge K9 dogs, pre-civil rights style - while they chanted: "No justice, no peace! Cops, pigs, dismantle the BART police!" We the people must tell you this is the fifth BART police killing where all have been people of color with the exception of Charles Hill.

<<http://sfbayview.com/wp-content/uploads/2011/07/Civic-Center-BART-protest-Charles-Hill-cop-killing-071111-2-by-Aric-Crabb-SJ-Mercury-News.jpg>>

In the previous cases, BART's internal investigations wrongfully concluded that the officers felt threatened by the victims and were justified in pulling the trigger. That excuse is unbelievable given the circumstances of the killings:

1. In 1992, 19-year-old African American Jerrold Hall - only son of Cornelius Hall, who at the time was the fire chief of Oakland - was shot in the back by a BART officer as he tried to leave the parking lot of a station. The officer was responding to reports of an armed robbery and said he suspected that Hall and a friend were involved. The officer tried to detain the two. Hall ran, and the officer shot him in the back and killed him. Hall was unarmed, but the officer said he thought Hall was on his way to get a gun and return for a showdown. Jerrold's assassin later committed suicide.

2. In 1997, Robert Greer died from an alleged "fall" after being taken into BART police custody.

3. In 2001, an African American schizophrenic man, Bruce Seward, was the next victim of the rogue force. Seward, 42, was naked and had been sleeping on a bench outside the BART station when an officer approached him. Seward had grabbed the officer's nightstick at one point and there were several options for subduing him, but instead, the officer shot and killed him. In an archived audiotape of that homicide investigation, the investigator asks the BART officer, "So, you felt you had to kill the suspect?" The cop replies, "Dunno, he just had this look on his face like he wanted me to shoot him."

4. On Jan. 1, 2009, an African American youth, Oscar Grant, was assassinated while already handcuffed and lying face down on the platform by BART officer Johannes Mehserle, who was released from custody on June 12, 2011, for "good behavior" following a substantial reduction of his incarceration for time already served from his indictment to the trial.

5. In July 17, 2010, BART police killed another African American man at the Fruitvale station, where they had killed Oscar Grant the previous year. He was identified as Fred Collins, 48, and initially described by BART as "Hispanic looking." Witnesses watching from their windows said Collins was walking backwards with his hands up when he fell in a hail of bullets shot by at least five cops; 15 or more were reportedly on the scene.

We must tell you that the killing endangered the lives of innocent bystanders, and we demand BART police to serve and protect, not kill and then lie and cover up afterward like business-as-usual. A BART commuter said after seeing Charles' photo in SF Gate, the website for the San Francisco Chronicle: "Dear God! I knew him! I used to give him quarters all the time - sweet guy, he would not have hurt a fly!"

A young black man jumped fare at South Hayward BART as he was late to go pick up his newborn baby from childcare. Four BART cops brought him to the ground and started hitting him with sticks. One was recording and kept yelling, "Nigger, say you wanna die! You know you wanna die; say it, nigger," at him so that he could become yet another "Black suicide by cop." There were witnesses on the platform. The young brother started screaming: "No! My wife and I just had a beautiful baby boy. I don't wanna die! Someone PLEASE call the police, the REAL police!" The BART cops gave him a citation and let him go. He and his wife were so shaken by the occurrence that they

had 2 emergency counseling sessions and an interactive "Know Your Rights" seminar with the entire family. We demand BART reforms now, with a new chief to clean house, bad cops arrested and prosecuted for their crimes.

It is a tragedy that commuters' upset is more important than a stolen, anonymous life. The corporate media whines on and on about the major delays and "distress" incurred as a result of the Stolen Lives protest <http://www.youtube.com/watch?v=apYrnMUmIAc> at the Civic Center BART Station July 11 by the commuters who were trying to get home. Why is there NOT a single word of compassion for Charles Hill's grieving family from BART or SF officials? We must remind you that alcohol is a legal drug, and alcoholism is an illness, a disability, not a crime! This is another wasted, stolen life - white this time, to the immense relief of law enforcement in that it dilutes allegations of longstanding illegal, racially biased policing. This wont fool us since it is now obvious to the American people that on the BART plantation, the poor, drunk, black, brown, yellow and the homeless are all the niggers of our world.

The message from this killing is Don't drink and BART if you want to live. We demand to know how a distraught subject with unsteady balance could possibly "lunge" at an officer, allegedly with a broken vodka bottle in one hand and a knife in the other, without falling down in the process? The American people already know that cops lie all the time so why don't BART just come clean, pay and say sorry? Even a female disabled elder would have no difficulty in quickly bringing to the ground any large aggressor with her cane. Police trainers advocate that one should not merely impair the fine motor skills of a subject while bringing him safely to the ground, hence protecting the subject from harming him or herself or nearby onlookers, but should always shoot at center mass. That is what was taught for 15 weeks at SFPD Academy citizens' training. What happened with the much praised Crisis Intervention Training (CIT) modeled after the Memphis Police Department training?

A witness to the killing says that BART officers should absolutely not have shot Charles Hill. While Hill was noticeably intoxicated, the 45-year-old man wearing a tie-dyed shirt and military fatigues was definitely not running or lunging towards the officers. He was moving like Frankenstein and nobody saw any knife. Despite holding press conferences about the killing, BART has yet to explain why the two officers, who are currently on paid leave, chose to shoot Hill, rather than pursuing another course of action like using batons or muscle. BART must be as transparent as possible in this process, and must release the names of the police officers involved. BART must release security footage of the incident now, and not wait until they've completed interviews with all 40 witnesses because this is a license for stalling or doctoring. The tape provides an accurate objective record of what happened, and the interviews should take a matter of days, not weeks or months. A recently released recording http://abclocal.go.com/kgo/story?section=news/local/san_francisco&id=8233814 of the radio transmission between a BART employee and BART police dispatcher only mentions that "the guy with the tie dye" had an open bottle of alcohol and was "moving around a lot." The two unidentified officers opened fire within one minute of their arrival, yet there is no evidence that they knew about a knife beforehand. No Justice, No BART and we the people demand that the BART Board of Directors shut down the corrupt, inept, disgraceful and murderous BART police department and that both officers involved in the shooting are not just fired, but go to prison for murder and denied all benefits and pension.

An injustice to one is an injustice to all, and for the protests to stop, BART must be held to account, and heads must roll. The culture of cops don't have to pay for their crimes is what is wrong with America, and we demand that you fix it NOW so that other cities can follow.

had 2 emergency counseling sessions and an interactive "Know Your Rights" seminar with the entire family. We demand BART reforms now, with a new chief to clean house, bad cops arrested and prosecuted for their crimes.

It is a tragedy that commuters' upset is more important than a stolen, anonymous life. The corporate media whines on and on about the major delays and "distress" incurred as a result of the Stolen Lives protest <http://www.youtube.com/watch?v=apYrnMUmIAC> at the Civic Center BART Station July 11 by the commuters who were trying to get home. Why is there NOT a single word of compassion for Charles Hill's grieving family from BART or SF officials? We must remind you that alcohol is a legal drug, and alcoholism is an illness, a disability, not a crime! This is another wasted, stolen life - white this time, to the immense relief of law enforcement in that it dilutes allegations of longstanding illegal, racially biased policing. This won't fool us since it is now obvious to the American people that on the BART plantation, the poor, drunk, black, brown, yellow and the homeless are all the niggers of our world.

The message from this killing is Don't drink and BART if you want to live. We demand to know how a distraught subject with unsteady balance could possibly "lunge" at an officer, allegedly with a broken vodka bottle in one hand and a knife in the other, without falling down in the process? The American people already know that cops lie all the time so why don't BART just come clean, pay and say sorry? Even a female disabled elder would have no difficulty in quickly bringing to the ground any large aggressor with her cane. Police trainers advocate that one should not merely impair the fine motor skills of a subject while bringing him safely to the ground, hence protecting the subject from harming him or herself or nearby onlookers, but should always shoot at center mass. That is what was taught for 15 weeks at SFPD Academy citizens' training. What happened with the much praised Crisis Intervention Training (CIT) modeled after the Memphis Police Department training?

A witness to the killing says that BART officers should absolutely not have shot Charles Hill. While Hill was noticeably intoxicated, the 45-year-old man wearing a tie-dyed shirt and military fatigues was definitely not running or lunging towards the officers. He was moving like Frankenstein and nobody saw any knife. Despite holding press conferences about the killing, BART has yet to explain why the two officers, who are currently on paid leave, chose to shoot Hill, rather than pursuing another course of action like using batons or muscle. BART must be as transparent as possible in this process, and must release the names of the police officers involved. BART must release security footage of the incident now, and not wait until they've completed interviews with all 40 witnesses because this is a license for stalling or doctoring. The tape provides an accurate objective record of what happened, and the interviews should take a matter of days, not weeks or months. A recently released recording http://abclocal.go.com/kgo/story?section=news/local/san_francisco&id=8233814 of the radio transmission between a BART employee and BART police dispatcher only mentions that "the guy with the tie dye" had an open bottle of alcohol and was "moving around a lot." The two unidentified officers opened fire within one minute of their arrival, yet there is no evidence that they knew about a knife beforehand. No Justice, No BART and we the people demand that the BART Board of Directors shut down the corrupt, inept, disgraceful and murderous BART police department and that both officers involved in the shooting are not just fired, but go to prison for murder and denied all benefits and pension.

An injustice to one is an injustice to all, and for the protests to stop, BART must be held to account, and heads must roll. The culture of cops don't have to pay for their crimes is what is wrong with America, and we demand that you fix it NOW so that other cities can follow.

Dear Lisa

We the people of California are angry that BART turned off cellphone service, angering passengers and raising questions about First Amendment rights in the age of social media protests. We have the right to network, assemble and communicate, for life, liberty and the pursuit of happiness would be impossible without them. We feel the pain and anger of the demonstrators who were protesting the July 3 shooting of Charles Blair Hill by BART police, who lied like a rug and claimed Hill came at them with a knife. How would you feel if your family were killed by BART? We demand that heads roll and the cops who were involved be prosecuted and do time without benefits or pension because cops do not have license to kill. BART must retrain all its cops to treat the poor, homeless, drunk and people of color as if they were jews. This is the solution to the problem of police brutality and racial profiling. You don't kill unarmed civilians, then lie, file false charges or plant weapons, and then have the chutzpah to cut off cellphone and internet to stop all protests like in Egypt. Indeed, we demand that all cops undergo lie detector tests and be injected truth serum after any killing for they would like lie like hell to cover their asses.

On July 3, 2011, at 9:45 p.m., a 45-year-old scruffy looking white man Charles Blair Hill, described ad nauseam by the media as a "wobbly drunk" and a "crazy hippy" - met a violent fate on a San Francisco Civic Center BART platform at the hands of two BART thugs in blue, one white and one Asian. Three bullet casings were recovered on the platform, and Charles was declared dead at San Francisco General Hospital an hour later. Merely BARTing while homeless and possibly intoxicated has now become a death sentence on the street in the home of the brave and the land of the free. We the American people will not stay silent on any BART police killings! Eight days later, on July 11, in commemoration of Charles' stolen life at the hands of BART police, a crowd of 200 civil rights protesters <http://www.mercurynews.com/breaking-news/ci_18456050> of all races, ages and economic backgrounds descended en masse to the Civic Center BART platform where Charles was executed like a rabid dog. They met a barrage of hundreds of cops in full riot gear - some flanked with huge K9 dogs, pre-civil rights style - while they chanted: "No justice, no peace! Cops, pigs, dismantle the BART police!" We the people must tell you this is the fifth BART police killing where all have been people of color with the exception of Charles Hill.

<http://previous.presstv.ir/photo/20110813/javadi20110813114739060.jpg>

<<http://sfbayview.com/wp-content/uploads/2011/07/Civic-Center-BART-protest-Charles-Hill-cop-killing-071111-2-by-Aric-Crabb-SJ-Mercury-News.jpg>>

In the previous cases, BART's internal investigations wrongfully concluded that the officers felt threatened by the victims and were justified in pulling the trigger. That excuse is unbelievable given the circumstances of the killings:

1. In 1992, 19-year-old African American Jerrold Hall - only son of Cornelius Hall, who at the time was the fire chief of Oakland - was shot in the back by a BART officer as he tried to leave the parking lot of a station. The officer was responding to reports of an armed robbery and said he suspected that Hall and a friend were involved. The officer tried to detain the two. Hall ran, and the officer shot him in the back and killed him. Hall was unarmed, but the officer said he thought Hall was on his way to get a gun and return for a showdown. Jerrold's assassin later committed suicide.

2. In 1997, Robert Greer died from an alleged "fall" after being taken into BART police custody.

3. In 2001, an African American schizophrenic man, Bruce Seward, was the next victim of the rogue force. Seward, 42, was naked and had been sleeping on a bench outside the BART station when an officer approached him. Seward had grabbed the officer's nightstick at one point and there were several options for subduing him, but instead, the officer shot and killed him. In an archived audiotape of that homicide investigation, the investigator asks the BART officer, "So, you felt you had to kill the suspect?" The cop replies, "Dunno, he just had this look on his face like he wanted me to shoot him."

4. On Jan. 1, 2009, an African American youth, Oscar Grant, was assassinated while already handcuffed and lying face down on the platform by BART officer Johannes Mehserle, who was released from custody on June 12, 2011, for "good behavior" following a substantial reduction of his incarceration for time already served from his indictment to the trial.

5. In July 17, 2010, BART police killed another African American man at the Fruitvale station, where they had killed Oscar Grant the previous year. He was identified as Fred Collins, 48, and initially described by BART as "Hispanic looking." Witnesses watching from their windows said Collins was walking backwards with his hands up when he fell in a hail of bullets shot by at least five cops; 15 or more were reportedly on the scene.

We must tell you that the killing endangered the lives of innocent bystanders, and we demand BART police to serve and protect, not kill and then lie and cover up afterward like business-as-usual. A BART commuter said after seeing Charles' photo in SF Gate, the website for the San Francisco Chronicle: "Dear God! I knew him! I used to give him quarters all the time - sweet guy, he would not have hurt a fly!"

A young black man jumped fare at South Hayward BART as he was late to go pick up his newborn baby from childcare. Four BART cops brought him to the ground and started hitting him with sticks. One was recording and kept yelling, "Nigger, say you wanna die! You know you wanna die; say it, nigger," at him so that he could become yet another "Black suicide by cop." There were witnesses on the platform. The young brother started screaming: "No! My wife and I just had a beautiful baby boy. I don't wanna die! Someone PLEASE call the police, the REAL police!" The BART cops gave him a citation and let him go. He and his wife were so shaken by the occurrence that they

had 2 emergency counseling sessions and an interactive "Know Your Rights" seminar with the entire family. We demand BART reforms now, with a new chief to clean house, bad cops arrested and prosecuted for their crimes.

It is a tragedy that commuters' upset is more important than a stolen, anonymous life. The corporate media whines on and on about the major delays and "distress" incurred as a result of the Stolen Lives protest <<http://www.youtube.com/watch?v=apYrnMUmIAc>> at the Civic Center BART Station July 11 by the commuters who were trying to get home. Why is there NOT a single word of compassion for Charles Hill's grieving family from BART or SF officials? We must remind you that alcohol is a legal drug, and alcoholism is an illness, a disability, not a crime! This is another wasted, stolen life - white this time, to the immense relief of law enforcement in that it dilutes allegations of longstanding illegal, racially biased policing. This wont fool us since it is now obvious to the American people that on the BART plantation, the poor, drunk, black, brown, yellow and the homeless are all the niggers of our world.

The message from this killing is Don't drink and BART if you want to live. We demand to know how a distraught subject with unsteady balance could possibly "lunge" at an officer, allegedly with a broken vodka bottle in one hand and a knife in the other, without falling down in the process? The American people already know that cops lie all the time so why don't BART just come clean, pay and say sorry? Even a female disabled elder would have no difficulty in quickly bringing to the ground any large aggressor with her cane. Police trainers advocate that one should not merely impair the fine motor skills of a subject while bringing him safely to the ground, hence protecting the subject from harming him or herself or nearby onlookers, but should always shoot at center mass. That is what was taught for 15 weeks at SFPD Academy citizens' training. What happened with the much praised Crisis Intervention Training (CIT) modeled after the Memphis Police Department training?

A witness to the killing says that BART officers should absolutely not have shot Charles Hill. While Hill was noticeably intoxicated, the 45-year-old man wearing a tie-dyed shirt and military fatigues was definitely not running or lunging towards the officers. He was moving like Frankenstein and nobody saw any knife. How would you feel if your family were killed by BART? We demand that heads roll and the cops who were involved be prosecuted and do time without benefits or pension because cops do not have license to kill. BART must retrain all its cops to treat the poor, homeless, drunk and people of color as if they were jews. This is the solution to the problem of police brutality and racial profiling. You don't kill unarmed civilians, then lie, file false charges or plant weapons, and then have the chutzpah to cut off cellphone and internet to stop all protests like in Egypt. Indeed, we demand that all cops undergo lie detector tests and be injected truth serum after any killing for they would like lie like hell to cover their asses.

On July 3, 2011, at 9:45 p.m., a 45-year-old scruffy looking white man Charles Blair Hill, described ad nauseam by the media as a "wobbly drunk" and a "crazy hippy" - met a violent fate on a San Francisco Civic Center BART platform at the hands of two BART thugs in blue, one white and one Asian. Three bullet casings were recovered on the platform, and Charles was declared dead at San Francisco General Hospital an hour later. Merely BARTing while homeless and possibly intoxicated has now become a death sentence on the street in the home of the brave and the land of the free. We the American people will not stay silent on any BART police killings! Eight days later, on July 11, in commemoration of Charles' stolen life at the hands of BART police, a crowd of 200 civil rights protesters <http://www.mercurynews.com/breaking-news/ci_18456050> of all races, ages and economic backgrounds descended en masse to the Civic Center BART platform where Charles was executed like a rabid dog. They met a barrage of hundreds of cops in full riot gear - some flanked with huge K9 dogs, pre-civil rights style - while they chanted: "No justice, no peace! Cops, pigs, dismantle the BART police!" We the people must tell you this is the fifth BART police killing where all have been people of color with the exception of Charles Hill.

<<http://sfbayview.com/wp-content/uploads/2011/07/Civic-Center-BART-protest-Charles-Hill-cop-killing-071111-2-by-Aric-Crabb-SJ-Mercury-News.jpg>>
<http://sfbayview.com/wp-content/uploads/2011/07/Civic-Center-BART-protest-Charles-Hill-cop-killing-071111-2-by-Aric-Crabb-SJ-Mercury-News.jpg>

In the previous cases, BART's internal investigations wrongfully concluded that the officers felt threatened by the victims and were justified in pulling the trigger. That excuse is unbelievable given the circumstances of the killings:

1. In 1992, 19-year-old African American Jerrold Hall - only son of Cornelius Hall, who at the time was the fire chief of Oakland - was shot in the back by a BART officer as he tried to leave the parking lot of a station. The officer was responding to reports of an armed robbery and said he suspected that Hall and a friend were involved. The officer tried to detain the two. Hall ran, and the officer shot him in the back and killed him. Hall was unarmed, but the officer said he thought Hall was on his way to get a gun and return for a showdown. Jerrold's assassin later committed suicide.

2. In 1997, Robert Greer died from an alleged "fall" after being taken into BART police custody.

3. In 2001, an African American schizophrenic man, Bruce Seward, was the next victim of the rogue force. Seward, 42, was naked and had been sleeping on a bench outside the BART station when an officer approached him. Seward had grabbed the officer's nightstick at one point and there were several options for subduing him, but instead, the officer shot and killed him. In an archived audiotape of that homicide investigation, the investigator asks the BART officer, "So, you felt you had to kill the suspect?" The cop replies, "Dunno, he just had this look on his face like he wanted me to shoot him."

4. On Jan. 1, 2009, an African American youth, Oscar Grant, was assassinated while already handcuffed and lying face down on the platform by BART officer Johannes Mehserle, who was released from custody on June 12, 2011, for "good behavior" following a substantial reduction of his incarceration for time already served from his indictment to the trial.

5. In July 17, 2010, BART police killed another African American man at the Fruitvale station, where they had killed Oscar Grant the previous year. He was identified as Fred Collins, 48, and initially described by BART as "Hispanic looking." Witnesses watching from their windows said Collins was walking backwards with his hands up when he fell in a hail of bullets shot by at least five cops; 15 or more were reportedly on the scene.

We must tell you that the killing endangered the lives of innocent bystanders, and we demand BART police to serve and protect, not kill and then lie and cover up afterward like business-as-usual. A BART commuter said after seeing Charles' photo in SF Gate, the website for the San Francisco Chronicle: "Dear God! I knew him! I used to give him quarters all the time - sweet guy, he would not have hurt a fly!"

A young black man jumped fare at South Hayward BART as he was late to go pick up his newborn baby from childcare. Four BART cops brought him to the ground and started hitting him with sticks. One was recording and kept yelling, "Nigger, say you wanna die! You know you wanna die; say it, nigger," at him so that he could become yet another "Black suicide by cop." There were witnesses on the platform. The young brother started screaming: "No! My wife and I just had a beautiful baby boy. I don't wanna die! Someone PLEASE call the police, the REAL police!" The BART cops gave him a citation and let him go. He and his wife were so shaken by the occurrence that they had 2 emergency counseling sessions and an interactive "Know Your Rights" seminar with the entire family. We demand BART reforms now, with a new chief to clean house, bad cops arrested and prosecuted for their crimes.

It is a tragedy that commuters' upset is more important than a stolen, anonymous life. The corporate media whines on and on about the major delays and "distress" incurred as a result of the Stolen Lives protest <<http://www.youtube.com/watch?v=apYrnMUmIAC>> at the Civic Center BART Station July 11 by the commuters who were trying to get home. Why is there NOT a single word of compassion for Charles Hill's grieving family from BART or SF officials? We must remind you that alcohol is a legal drug, and alcoholism is an illness, a disability, not a crime! This is another wasted, stolen life - white this time, to the immense relief of law enforcement in that it dilutes allegations of longstanding illegal, racially biased policing. This wont fool us since it is now obvious to the American people that on the BART plantation, the poor, drunk, black, brown, yellow and the homeless are all the niggers of our world.

The message from this killing is Don't drink and BART if you want to live. We demand to know how a distraught subject with unsteady balance could possibly "lunge" at an officer, allegedly with a broken vodka bottle in one hand and a knife in the other, without falling down in the process? The American people already know that cops lie all the time so why don't BART just come clean, pay and say sorry? Even a female disabled elder would have no difficulty in quickly bringing to the ground any large aggressor with her cane. Police trainers advocate that one should not merely impair the fine motor skills of a subject while bringing him safely to the ground, hence protecting the subject from harming him or herself or nearby onlookers, but should always shoot at center mass. That is what was taught for 15 weeks at SFPD Academy citizens' training. What happened with the much praised Crisis Intervention Training (CIT) modeled after the Memphis Police Department training?

A witness to the killing says that BART officers should absolutely not have shot Charles Hill. While Hill was noticeably intoxicated, the 45-year-old man wearing a tie-dyed shirt and military fatigues was definitely not running or lunging towards the officers. He was moving like Frankenstein and nobody saw any knife. Despite holding press conferences about the killing, BART has yet to explain why the two officers, who are currently on paid leave, chose to shoot Hill, rather than pursuing another course of action like using batons or muscle. BART must be as transparent as possible in this process, and must release the names of the police officers involved. BART must release security footage of the incident now, and not wait until they've completed interviews with all 40 witnesses because this is a license for stalling or doctoring. The tape provides an accurate objective record of what happened, and the interviews should take a matter of days, not weeks or months. A recently released recording <http://abclocal.go.com/kgo/story?section=news/local/san_francisco&id=8233814> of the radio transmission between a BART employee and BART police

dispatcher only mentions that "the guy with the tie dye" had an open bottle of alcohol and was "moving around a lot." The two unidentified officers opened fire within one minute of their arrival, yet there is no evidence that they knew about a knife beforehand. No Justice, No BART and we the people demand that the BART Board of Directors shut down the corrupt, inept, disgraceful and murderous BART police department and that both officers involved in the shooting are not just fired, but go to prison for murder and denied all benefits and pension.

An injustice to one is an injustice to all, and for the protests to stop, BART must be held to account, and heads must roll. The culture of cops don't have to pay for their crimes is what is wrong with America, and we demand that you fix it NOW so that other cities can follow.

<<http://sfbayview.com/wp-content/uploads/2011/07/Charles-Hill2.jpg>>
<http://sfbayview.com/wp-content/uploads/2011/07/Charles-Hill2.jpg>

Charles Hill

The decision by BART officials to cut off cellphone service Thursday evening -- to forestall a planned protest -- raises a fundamental question: Do Americans have a basic right to digital free speech or to digitally organized assembly? We the people say YES because this is guaranteed by the Constitution, which is technology agnostic. Temporarily shutting down cell service and beefing up police patrols are NOT the correct answer to this problem caused by BART. We appeal to you not just on legal and social grounds but on economic grounds, as police killing costs the city money with wrongful death lawsuits where the going rate is \$15M to \$20M per victim. We must remind you that back in 2003, Libya was forced to pay \$10M per person for the Lockerbie or Pan Am 103 bombing, and the dollar has been inflated a lot since then so that \$10M is now worth \$20M. When a cop kills, it will cost the city or county at least \$10 million per victim, not to mention criminal investigations by FBI and a DOJ consent decree for 10 years. To regain the public trust, stop all protests and the feds investigating which are justified because of BART police brutality, the correct course of action is a public apology, pay compensation to Hill's family, get a new chief, police reforms, and imprison the 2 murderous cops for being the criminals that they are.

Dear Lynette

We the people of California are angry that BART turned off cellphone service, angering passengers and raising questions about First Amendment rights in the age of social media protests. We have the right to network, assemble and communicate, for life, liberty and the pursuit of happiness would be impossible without them. We feel the pain and anger of the demonstrators who were protesting the July 3 shooting of Charles Blair Hill by BART police, who lied like a rug and claimed Hill came at them with a knife. How would you feel if your family were killed by BART? We demand that heads roll and the cops who were involved be prosecuted and do time without benefits or pension because cops do not have license to kill. BART must retrain all its cops to treat the poor, homeless, drunk and people of color as if they were jews. This is the solution to the problem of police brutality and racial profiling. You don't kill unarmed civilians, then lie, file false charges or plant weapons, and then have the chutzpah to cut off cellphone and internet to stop all protests like in Egypt. Indeed, we demand that all cops undergo lie detector tests and be injected truth serum after any killing for they would like lie like hell to cover their asses.

On July 3, 2011, at 9:45 p.m., a 45-year-old scruffy looking white man Charles Blair Hill, described ad nauseam by the media as a "wobbly drunk" and a "crazy hippy" - met a violent fate on a San Francisco Civic Center BART platform at the hands of two BART thugs in blue, one white and one Asian. Three bullet casings were recovered on the platform, and Charles was declared dead at San Francisco General Hospital an hour later. Merely BARTing while homeless and possibly intoxicated has now become a death sentence on the street in the home of the brave and the land of the free. We the American people will not stay silent on any BART police killings! Eight days later, on July 11, in commemoration of Charles' stolen life at the hands of BART police, a crowd of 200 civil rights protesters <http://www.mercurynews.com/breaking-news/ci_18456050> of all races, ages and economic backgrounds descended en masse to the Civic Center BART platform where Charles was executed like a rabid dog. They met a barrage of hundreds of cops in full riot gear - some flanked with huge K9 dogs, pre-civil rights style - while they chanted: "No justice, no peace! Cops, pigs, dismantle the BART police!" We the people must tell you this is the fifth BART police killing where all have been people of color with the exception of Charles Hill.

There appears to be a planned protest at the Civic Center BART station on Monday, August 15, 2011 at 1700 hrs. The group Anonymous is upset over the recent cell phone shut off at BART on August 11, 2011. See the attached web page:

<http://youranonnews.tumblr.com/>

I'm not totally sure who this group is or what influence they have in gathering participants in this protest. For what I can tell, Anonymous is a group of hackers who collectively go after institutions, companies and governments by means of cyber attack. Supposedly, they have been successful in some of there "Ops." The forthcoming BART protest is labelled, "OpBART." Recently, Anonymous has been in the news threatening to "kill" Facebook on November 5, 2011. Their motto is, "We are Anonymous, We are legion, We never forgive, We never forget, Expect us."

If the above link does not take you to "OpBART", the following should:

Sergeant Coontz,

I spoke with DC Fairow and he would like us to prepare for the Monday protest, using the same template as this past Thursday: Ops Order, Tac Team, SWAT, CAP, A-Platoon hold over and B-Platoon in an hour early. I am working as the WC tonight and will meet with you to organize this operation.

A website is calling for a protest at Civic Center at 5pm Monday and for a campaign to flood BART's communications channels.

Additionally, while planning this operation, give consideration and include in the Ops Plan contingencies for communications failures. We need everyone involved to know what to do if computer and/ phone networks are disrupted.

Thanks,

Ben

Sergeant Coontz,

I spoke with DC Fairow and he would like us to prepare for the Monday protest, using the same template as this past Thursday: Ops Order, Tac Team, SWAT, CAP, A-Platoon hold over and B-Platoon in an hour early. I am working as the WC tonight and will meet with you to organize this operation.

Protest CCS Monday, August 15, 2011 at 1700 hrs

There appears to be a planned protest at the Civic Center BART station on Monday, August 15, 2011 at 1700 hrs. The group Anonymous is upset over the recent cell phone shut off at BART on August 11, 2011. See the attached web page:

<http://youranonnews.tumblr.com/>

I'm not totally sure who this group is or what influence they have in gathering participants in this protest. For what I can tell, Anonymous is a group of hackers who collectively go after institutions, companies and governments by means of cyber attack. Supposedly, they have been successful in some of there "Ops." The forthcoming BART protest is labelled, "OpBART." Recently, Anonymous has been in the news threatening to "kill" Facebook on November 5, 2011. Their motto is, "We are Anonymous, We are legion, We never forgive, We never forget, Expect us."

If the above link does not take you to "OpBART", the following should:

¶ SAN FRANCISCO (AP) — Transit officials said Friday that they blocked cellphone reception in San Francisco train stations for three hours to disrupt planned demonstrations over a police shooting.

¶ Officials with the Bay Area Rapid Transit system, better known as BART, said they turned off electricity to cellular towers in four stations from 4 p.m. to 7 p.m. Thursday. The move was made after BART learned that protesters planned to use mobile devices to coordinate a demonstration on train platforms.

¶ "A civil disturbance during commute times at busy downtown San Francisco stations could lead to platform overcrowding and unsafe conditions for BART customers, employees and demonstrators," BART officials said in a prepared statement.

¶ The statement noted that it's illegal to demonstrate on the platform or aboard the trains. BART said it has set aside special areas for demonstrations.

¶ The American Civil Liberties Union questioned the tactic.

¶ "Shutting down access to mobile phones is the wrong response to political protests," the ACLU's Rebecca Farmer said in a blog post.

¶ The Electronic Frontier Foundation said on its website that "BART officials are showing themselves to be of a mind with the former president of Egypt, Hosni Mubarak." Mubarak's regime cut Internet and cellphone services in the country for days early this year while trying to squelch protests demanding an end to his authoritarian rule.

¶ BART officials were confident the cellphone disruptions were legal. The demonstration planned Thursday failed to develop.

¶ "We had a commute that was safe and without disruption," said BART spokesman Jim Allison.

¶ The demonstrators were protesting the July 3 shooting of Charles Blair Hill by BART police who claimed Hill came at them with a knife.

¶ A July 11 demonstration disrupted service during the rush-hour commute, prompting the closing of BART's Civic Center station. Several arrests were made.

Lea:

We will be gearing up for this protest over the next couple of days and I'll get an ops plan to you asap. I'm planning on similar staffing and deployment as last time.

One thing to consider and plan for is the fact the group calling for this protest is the network hacking group Anonymous. They are advocating mass emails, faxes, etc. to overwhelm our communication systems and I think it likely they will launch any network attacks at the same time. Consequently, we will be planning for and have contingency plans for comm loss. You may want to consider alerting your IT people as well, just in case the group targets SFPD.

Call or write if you've any questions or problems. I will let you know as things develop.

Thanks,

Ben

To the entire Board

We the people of California are angry that BART turned off cellphone service, angering passengers and raising questions about First Amendment rights in the age of social media protests. We have the right to network, assemble and communicate, for life, liberty and the pursuit of happiness would be impossible without them. We feel the pain and anger of the demonstrators who were protesting the July 3 shooting of Charles Blair Hill by BART police, who lied like a rug and claimed Hill came at them with a knife. How would you feel if your family were killed by BART? We demand that heads roll and the cops who were involved be prosecuted and do time without benefits or pension because cops do not have license to kill. BART must retrain all its cops to treat the poor, homeless, drunk and people of color as if they were jews. This is the solution to the problem of police brutality and racial profiling. You don't kill unarmed civilians, then lie, file false charges or plant weapons, and then have the chutzpah to cut off cellphone and internet to stop all protests like in Egypt. Indeed, we demand that all cops undergo lie detector tests and be injected truth serum after any killing for they would like lie like hell to cover their asses.

On July 3, 2011, at 9:45 p.m., a 45-year-old scruffy looking white man Charles Blair Hill, described ad nauseam by the media as a "wobbly drunk" and a "crazy hippy" - met a violent fate on a San Francisco Civic Center BART platform at the hands of two BART thugs in blue, one white and one Asian. Three bullet casings were recovered on the platform, and Charles was declared dead at San Francisco General Hospital an hour later. Merely BARTing while homeless and possibly intoxicated has now become a death sentence on the street in the home of the brave and the land of the free. We the American people will not stay silent on any BART police killings! Eight days later, on July 11, in commemoration of Charles' stolen life at the hands of BART police, a crowd of 200 civil rights protesters <http://www.mercurynews.com/breaking-news/ci_18456050> of all races, ages and economic backgrounds descended en masse to the Civic Center BART platform where Charles was executed like a rabid dog. They met a barrage of hundreds of cops in full riot gear - some flanked with huge K9 dogs, pre-civil rights style - while they chanted: "No justice, no peace! Cops, pigs, dismantle the BART police!" We the people must tell you this is the fifth BART police killing where all have been people of color with the exception of Charles Hill.

<http://previous.presstv.ir/photo/20110813/javadi20110813114739060.jpg>

<<http://sfbayview.com/wp-content/uploads/2011/07/Civic-Center-BART-protest-Charles-Hill-cop-killing-071111-2-by-Aric-Crabb-SJ-Mercury-News.jpg>>

In the previous cases, BART's internal investigations wrongfully concluded that the officers felt threatened by the victims and were justified in pulling the trigger. That excuse is unbelievable given the circumstances of the killings:

1. In 1992, 19-year-old African American Jerrold Hall - only son of Cornelius Hall, who at the time was the fire chief of Oakland - was shot in the back by a BART officer as he tried to leave the parking lot of a station. The officer was responding to reports of an armed robbery and said he suspected that Hall and a friend were involved. The officer tried to detain the two. Hall ran, and the officer shot him in the back and killed him. Hall was unarmed, but the officer said he thought Hall was on his way to get a gun and return for a showdown. Jerrold's assassin later committed suicide.

2. In 1997, Robert Greer died from an alleged "fall" after being taken into BART police custody.

3. In 2001, an African American schizophrenic man, Bruce Seward, was the next victim of the rogue force. Seward, 42, was naked and had been sleeping on a bench outside the BART station when an officer approached him. Seward had grabbed the officer's nightstick at one point and there were several options for subduing him, but instead, the officer shot and killed him. In an archived audiotape of that homicide investigation, the investigator asks the BART officer, "So, you felt you had to kill the suspect?" The cop replies, "Dunno, he just had this look on his face like he wanted me to shoot him."

4. On Jan. 1, 2009, an African American youth, Oscar Grant, was assassinated while already handcuffed and lying face down on the platform by BART officer Johannes Mehserle, who was released from custody on June 12, 2011, for "good behavior" following a substantial reduction of his incarceration for time already served from his indictment to the trial.

5. In July 17, 2010, BART police killed another African American man at the Fruitvale station, where they had killed Oscar Grant the previous year. He was identified as Fred Collins, 48, and initially described by BART as "Hispanic looking." Witnesses watching from their windows said Collins was walking backwards with his hands up when he fell in a hail of bullets shot by at least five cops; 15 or more were reportedly on the scene.

We must tell you that the killing endangered the lives of innocent bystanders, and we demand BART police to serve and protect, not kill and then lie and cover up afterward like business-as-usual. A BART commuter said after seeing Charles' photo in SF Gate, the website for the San Francisco Chronicle: "Dear God! I knew him! I used to give him quarters all the time - sweet guy, he would not have hurt a fly!"

A young black man jumped fare at South Hayward BART as he was late to go pick up his newborn baby from childcare. Four BART cops brought him to the ground and started hitting him with sticks. One was recording and kept yelling, "Nigger, say you wanna die! You know you wanna die; say it, nigger," at him so that he could become yet another "Black suicide by cop." There were witnesses on the platform. The young brother started screaming: "No! My wife and I just had a beautiful baby boy. I don't wanna die! Someone PLEASE call the police, the REAL police!" The BART cops gave him a citation and let him go. He and his wife were so shaken by the occurrence that they

had 2 emergency counseling sessions and an interactive "Know Your Rights" seminar with the entire family. We demand BART reforms now, with a new chief to clean house, bad cops arrested and prosecuted for their crimes.

It is a tragedy that commuters' upset is more important than a stolen, anonymous life. The corporate media whines on and on about the major delays and "distress" incurred as a result of the Stolen Lives protest <http://www.youtube.com/watch?v=apYrnMUmIAc> at the Civic Center BART Station July 11 by the commuters who were trying to get home. Why is there NOT a single word of compassion for Charles Hill's grieving family from BART or SF officials? We must remind you that alcohol is a legal drug, and alcoholism is an illness, a disability, not a crime! This is another wasted, stolen life - white this time, to the immense relief of law enforcement in that it dilutes allegations of longstanding illegal, racially biased policing. This won't fool us since it is now obvious to the American people that on the BART plantation, the poor, drunk, black, brown, yellow and the homeless are all the niggers of our world.

The message from this killing is Don't drink and BART if you want to live. We demand to know how a distraught subject with unsteady balance could possibly "lunge" at an officer, allegedly with a broken vodka bottle in one hand and a knife in the other, without falling down in the process? The American people already know that cops lie all the time so why don't BART just come clean, pay and say sorry? Even a female disabled elder would have no difficulty in quickly bringing to the ground any large aggressor with her cane. Police trainers advocate that one should not merely impair the fine motor skills of a subject while bringing him safely to the ground, hence protecting the subject from harming him or herself or nearby onlookers, but should always shoot at center mass. That is what was taught for 15 weeks at SFPD Academy citizens' training. What happened with the much praised Crisis Intervention Training (CIT) modeled after the Memphis Police Department training?

A witness to the killing says that BART officers should absolutely not have shot Charles Hill. While Hill was noticeably intoxicated, the 45-year-old man wearing a tie-dyed shirt and military fatigues was definitely not running or lunging towards the officers. He was moving like Frankenstein and nobody saw any knife. Despite holding press conferences about the killing, BART has yet to explain why the two officers, who are currently on paid leave, chose to shoot Hill, rather than pursuing another course of action like using batons or muscle. BART must be as transparent as possible in this process, and must release the names of the police officers involved. BART must release security footage of the incident now, and not wait until they've completed interviews with all 40 witnesses because this is a license for stalling or doctoring. The tape provides an accurate objective record of what happened, and the interviews should take a matter of days, not weeks or months. A recently released recording http://abclocal.go.com/kgo/story?section=news/local/san_francisco&id=8233814 of the radio transmission between a BART employee and BART police dispatcher only mentions that "the guy with the tie dye" had an open bottle of alcohol and was "moving around a lot." The two unidentified officers opened fire within one minute of their arrival, yet there is no evidence that they knew about a knife beforehand. No Justice, No BART and we the people demand that the BART Board of Directors shut down the corrupt, inept, disgraceful and murderous BART police department and that both officers involved in the shooting are not just fired, but go to prison for murder and denied all benefits and pension.

An injustice to one is an injustice to all, and for the protests to stop, BART must be held to account, and heads must roll. The culture of cops don't have to pay for their crimes is what is wrong with America, and we demand that you fix it NOW so that other cities can follow.

<<http://sfbayview.com/wp-content/uploads/2011/07/Charles-Hill2.jpg>>
<http://sfbayview.com/wp-content/uploads/2011/07/Charles-Hill2.jpg>

Charles Hill

The decision by BART officials to cut off cellphone service Thursday evening -- to forestall a planned protest -- raises a fundamental question: Do Americans have a basic right to digital free speech or to digitally organized assembly? We the people say YES because this is guaranteed by the Constitution, which is technology agnostic. Temporarily shutting down cell service and beefing up police patrols are NOT the correct answer to this problem caused by BART. We appeal to you not just on legal and social grounds but on economic grounds, as police killing costs the city money with wrongful death lawsuits where the going rate is \$15M to \$20M per victim. We must remind you that back in 2003, Libya was forced to pay \$10M per person for the Lockerbie or Pan Am 103 bombing, and the dollar has been inflated a lot since then so that \$10M is now worth \$20M. When a cop kills, it will cost the city or county at least \$10 million per victim, not to mention criminal investigations by FBI and a DOJ consent decree for 10 years. To regain the public trust, stop all protests and the feds investigating which are justified because of BART police brutality, the correct course of action is a public apology, pay compensation to Hill's family, get a new chief, police reforms, and imprison the 2 murderous cops for being the criminals that they are.

We The people

Subject: Shutdown of BART cellphone service
Date: 8/13/2011 1:02:10 PM

To whom it may concern:

I completely support BART's decision to shut down cell phone service within BART's service area to disrupt a potential riot at civic center. Those who equivocate BART's shutdown with Egyptian president Mubarak's shutdown of the internet, or those who call it simply a violation of the right to freedom of speech are unequivocally mistaken - BART is offering a service to its customers; it does not have the authority to shut down cell phone service providers' ability to provide such service to its customers above ground. BART has the full authority to shut down this service to its customers if abuse of such service would result in the danger or disruption of its principal service, i.e. transportation, to its customers - this is NOT the government's intervention of freedom of speech; if BART shut down cell phone service in general, that would be the case, but since this is only a service that BART is providing its customers, it has complete authority to shut down such service. The failure of BART to make this decision would have resulted in the disruption of transportation service to all those paying BART customers who depend on uninterrupted service to go to and from work every day, and it is these people who pay the BART employees pay checks and whose rights to go to and from work should be considered the principal consideration of all BART employees.

Thank you, Jason Barnard (every day rider)

BART explains cell phone disruption; ACLU pans action

By Rick Hurd

Contra Costa Times

Posted: 08/12/2011 07:44:29 PM PDT

Updated: 08/12/2011 10:57:14 PM PDT

BART on Friday released a statement explaining its actions after cellphone reception in four downtown San Francisco stations was interrupted Thursday in a move to disrupt a planned demonstration, a decision denounced by civil libertarians.

In the statement, BART officials said the transit agency cut cellphone service after learning protesters planned to use mobile devices to coordinate a demonstration over the July 3 police shooting of Charles Blair Hill on the Civic Center station platform. Hill, a transient, was shot after police say he threw a bottle at them and then approached a BART officer and displayed a weapon.

"A civil disturbance during commute times at busy downtown San Francisco stations could lead to platform overcrowding and unsafe conditions for BART customers, employees and demonstrators," BART said in a statement on its website. "BART temporarily interrupted (cellphone) service at select BART stations as one of many tactics to ensure the safety of everyone on the platform."

The statement also noted that it is illegal to demonstrate on the platform or aboard the trains.

BART said it has set aside areas for demonstrations, and that the agency manned its stations and trains with additional personnel in case of emergencies.

Still, the American Civil Liberties Union said shutting down cellphone usage

was objectionable and expressed concern about passenger safety.
"Shutting down access to mobile phones is the
Advertisement

wrong response to political protests," the ACLU's Rebecca Farmer said in a
blog post.

No demonstrations developed Thursday. A July 11 demonstration disrupted
service during the rush-hour commute, prompting the closure of the Civic
Center and ending in many arrests.

BART police Chief Kenton Rainey said last month that he is "comfortable" with
how officers reacted on the night Hill was killed.

Sergeant Coontz,

I spoke with DC Fairow and he would like us to prepare for the Monday protest,
using the same template as this past Thursday: Ops Order, Tac Team, SWAT, CAP,
A-Platoon hold over and B-Platoon in an hour early. I am working as the WC tonight and will meet with you to organize this operation.

Protest CCS Monday, August 15, 2011 at 1700 hrs

There appears to be a planned protest at the Civic Center BART station on
Monday, August 15, 2011 at 1700 hrs. The group Anonymous is upset over the
recent cell phone shut off at BART on August 11, 2011. See the attached web
page:

<http://youranonnews.tumblr.com/>

I'm not totally sure who this group is or what influence they have in
gathering
participants in this protest. For what I can tell, Anonymous is a group of
hackers who collectively go after institutions, companies and governments by
means of cyber attack. Supposedly, they have been successful in some of
there
"Ops." The forthcoming BART protest is labelled, "OpBART." Recently,
Anonymous has been in the news threatening to "kill" Facebook on November 5,
2011. Their motto is, "We are Anonymous, We are legion, We never forgive, We
never forget, Expect us."

If the above link does not take you to "OpBART", the following should:

Protest CCS Monday, August 15, 2011 at 1700 hrs

There appears to be a planned protest at the Civic Center BART station on Monday, August 15, 2011 at 1700 hrs. The group Anonymous is upset over the recent cell phone shut off at BART on August 11, 2011. See the attached web page:

<http://youranonnews.tumblr.com/>

I'm not totally sure who this group is or what influence they have in gathering participants in this protest. For what I can tell, Anonymous is a group of hackers who collectively go after institutions, companies and governments by means of cyber attack. Supposedly, they have been successful in some of there "Ops." The forthcoming BART protest is labelled, "OpBART." Recently, Anonymous has been in the news threatening to "kill" Facebook on November 5, 2011. Their motto is, "We are Anonymous, We are legion, We never forgive, We never forget, Expect us."

If the above link does not take you to "OpBART", the following should:

Paul Garcia or Tim Pashoian are your best bets. Paul is on vac until Monday, but I'll give him a heads up. Tim is on RDO's and I'll text him too.

I'd use Hartwig as a back-up if neither of those guys are available.

I'll be in Canada in about three hours, so I'm not sure if the blkberry will be working after that. My wireless may be going dark ;)

Sergeant Coontz,

I spoke with DC Fairow and he would like us to prepare for the Monday protest, using the same template as this past Thursday: Ops Order, Tac Team, SWAT, CAP, A-Platoon hold over and B-Platoon in an hour early. I am working as the WC tonight and will meet with you to organize this operation.

This is a message from Anonymous to the Bay Area Rapid Transit System (BART)

TO THE PEOPLE OF THE USA:

The past year has brought about some substantial awareness through some unfortunate events that have occurred throughout our world. From internet censorship to the unnecessary violence inflicted upon unarmed civilians, weâ€™ve all seen what can happen once a portion of us are gagged. In Egypt and Tunisia, we saw people struggling to make their voices heard. We have seen companies such as Telecomix delve into the nastiness of political corruption in an attempt to free those censored individuals from their prisons of silence. We seen social media such as FaceBook and twitter explode with users from around the world speaking out against censorship. Today, weâ€™ve seen America come alive. In the Bay Area, weâ€™ve seen people gagged, and once more, Anonymous will attempt to show those engaging in the censorship what it feels like to be silenced. #OpBART is an operation geared toward balance - toward learning. You do not censor people because they wish to speak out against the wrongs the wrongful things occurring around them. The Bay Area Rapid Transit has made the conscious decision of ordering various cell phone companies to terminate services for the downtown area inhibiting those in the area from using cell phones - even in the case of an emergency.

To BART:

We will not tolerate censorship.
We will do everything in our power (we are legion) to parallel the actions of censorship that you have chosen to engage in.
We will be free to speak out against you when you try to cover up crimes, namely on behalf of those who have engaged in violence against a mostly unarmed public.
We will set those who have been censored free from their silence. Thatâ€™s a promise.
Anonymous demands that this activity revolving around censorship cease and desist and we know you are already planning to do this again.
We will not issue any more warnings.

TO THE PEOPLE OF SAN FRANCISCO:

People of San Francisco, join us Monday, August 15th at 5pm for a peaceful protest at Civic Center station to illustrate the solidarity with people we once knew and to stand up for your rights and those of your fellow citizens. We will be wearing â€œbloodâ€ stained shirts for remembrance to the blood that is on the hands of the BART police. (Protest flier)

For the people outside of San Francisco, show solidarity by using black fax, email bombs, and phone calls to the BART Board of Directors. BART decided to cut off your communications and now we will flood theirs.

We request that you bring cameras to record further abuses of power by the police and to legitimize the protest. The media will certainly spin this in an

attempt to make our actions appear to be violent or somehow harmful to the citizenry at large. Remember, this is a peaceful protest. Any actions trying to incite violence in our protest are not of our people, and they ought to be discouraged.

We are Anonymous,

We are legion,

We never forgive,

We never forget,

Expect us.

> Officials interrupt cellphone reception in SF train stations to disrupt planned protest
>
> Â¶ SAN FRANCISCO (AP) _ Transit officials said Friday that they blocked cellphone reception in San Francisco train stations for three hours to disrupt planned demonstrations over a police shooting.
>
> Â¶ Officials with the Bay Area Rapid Transit system, better known as BART, said they turned off electricity to cellular towers in four stations from 4 p.m. to 7 p.m. Thursday. The move was made after BART learned that protesters planned to use mobile devices to coordinate a demonstration on train platforms.
>
> Â¶ "A civil disturbance during commute times at busy downtown San Francisco stations could lead to platform overcrowding and unsafe conditions for BART customers, employees and demonstrators," BART officials said in a prepared statement.
>
> Â¶ The statement noted that it's illegal to demonstrate on the platform or aboard the trains. BART said it has set aside special areas for demonstrations.
>
> Â¶ The American Civil Liberties Union questioned the tactic.
>
> Â¶ "Shutting down access to mobile phones is the wrong response to political protests," the ACLU's Rebecca Farmer said in a blog post.
>
> Â¶ The Electronic Frontier Foundation said on its website that "BART officials are showing themselves to be of a mind with the former president of Egypt, Hosni Mubarak." Mubarak's regime cut Internet and cellphone services in the country for days early this year while trying to squelch protests demanding an end to his authoritarian rule.
>
> Â¶ BART officials were confident the cellphone disruptions were legal. The demonstration planned Thursday failed to develop.
>
> Â¶ "We had a commute that was safe and without disruption," said BART spokesman Jim Allison.
>

> ¶ The demonstrators were protesting the July 3 shooting of Charles Blair Hill by BART police who claimed Hill came at them with a knife.
>
> ¶ A July 11 demonstration disrupted service during the rush-hour commute, prompting the closing of BART's Civic Center station. Several arrests were made.

> Officials interrupt cellphone reception in SF train stations to disrupt planned protest

>

> Â¶ SAN FRANCISCO (AP) _ Transit officials said Friday that they blocked cellphone reception in San Francisco train stations for three hours to disrupt planned demonstrations over a police shooting.

>

> Â¶ Officials with the Bay Area Rapid Transit system, better known as BART, said they turned off electricity to cellular towers in four stations from 4 p.m. to 7 p.m. Thursday. The move was made after BART learned that protesters planned to use mobile devices to coordinate a demonstration on train platforms.

>

> Â¶ "A civil disturbance during commute times at busy downtown San Francisco stations could lead to platform overcrowding and unsafe conditions for BART customers, employees and demonstrators," BART officials said in a prepared statement.

>

> Â¶ The statement noted that it's illegal to demonstrate on the platform or aboard the trains. BART said it has set aside special areas for demonstrations.

>

> Â¶ The American Civil Liberties Union questioned the tactic.

>

> Â¶ "Shutting down access to mobile phones is the wrong response to political protests," the ACLU's Rebecca Farmer said in a blog post.

>

> Â¶ The Electronic Frontier Foundation said on its website that "BART officials are showing themselves to be of a mind with the former president of Egypt, Hosni Mubarak." Mubarak's regime cut Internet and cellphone services in the country for days early this year while trying to squelch protests demanding an end to his authoritarian rule.

>

> Â¶ BART officials were confident the cellphone disruptions were legal. The demonstration planned Thursday failed to develop.

>

> Â¶ "We had a commute that was safe and without disruption," said BART spokesman Jim Allison.

>

> Â¶ The demonstrators were protesting the July 3 shooting of Charles Blair

Hill by BART police who claimed Hill came at them with a knife.

>

> ¶ A July 11 demonstration disrupted service during the rush-hour commute, prompting the closing of BART's Civic Center station. Several arrests were made.

> Subject: Associated Press -- Seeking legal sources today re: San Fran
transit system cutting off cell service
>
> Dear Mr. Resau,
>

> Wondering if your firm is in a position to help with this on a Saturday. I'm trying to assist reporters with the story below. The nutshell is that the San Fran transit system shut down cellphone service on Thursday for a few hours in order to suppress a demonstration.

>
> We're looking for a legal expert to offer some perspective on what the legal implications might be for BART. How does it relate to free the suppression of free speech? What are the expectations for cellphone service underground? Is their action of cutting off power to a cell tower legally different than if they did something more directly targeted at controlling the protest, rather than the technology involved. We need to speak with sources as soon as possible. The story is to be updated later today.

>
> Please let me know if you have questions. Thanks, Trevor

This is a message from Anonymous to the Bay Area Rapid Transit System (BART)

TO THE PEOPLE OF THE USA:

The past year has brought about some substantial awareness through some unfortunate events that have occurred throughout our world. From internet censorship to the unnecessary violence inflicted upon unarmed civilians, weâ€™ve all seen what can happen once a portion of us are gagged. In Egypt and Tunisia, we saw people struggling to make their voices heard. We have seen companies such as Telecomix delve into the nastiness of political corruption in an attempt to free those censored individuals from their prisons of silence. We seen social media such as FaceBook and twitter explode with users from around the world speaking out against censorship. Today, weâ€™ve seen America come alive. In the Bay Area, weâ€™ve seen people gagged, and once more, Anonymous will attempt to show those engaging in the censorship what it feels like to be silenced. #OpBART is an operation geared toward balance - toward learning. You do not censor people because they wish to speak out against the wrongs the wrongful things occurring around them. The Bay Area Rapid Transit has made the conscious decision of ordering various cell phone companies to terminate services for the downtown area inhibiting those in the area from using cell phones - even in the case of an emergency.

To BART:

We will not tolerate censorship.
We will do everything in our power (we are legion) to parallel the actions of censorship that you have chosen to engage in.
We will be free to speak out against you when you try to cover up crimes, namely on behalf of those who have engaged in violence against a mostly unarmed public.
We will set those who have been censored free from their silence. Thatâ€™s a promise.
Anonymous demands that this activity revolving around censorship cease and desist and we know you are already planning to do this again.
We will not issue any more warnings.

TO THE PEOPLE OF SAN FRANCISCO:

People of San Francisco, join us Monday, August 15th at 5pm for a peaceful protest at Civic Center station to illustrate the solidarity with people we once knew and to stand up for your rights and those of your fellow citizens. We will be wearing "blood" stained shirts for remembrance to the blood that is on the hands of the BART police. (Protest flier)

For the people outside of San Francisco, show solidarity by using black fax, email bombs, and phone calls to the BART Board of Directors. BART decided to cut off your communications and now we will flood theirs.

We request that you bring cameras to record further abuses of power by the police and to legitimize the protest. The media will certainly spin this in an attempt to make our actions appear to be violent or somehow harmful to the citizenry at large. Remember, this is a peaceful protest. Any actions trying to incite violence in our protest are not of our people, and they ought to be discouraged.

We are Anonymous,

We are legion,

We never forgive,

We never forget,

Expect us.

SAN FRANCISCO -- Transit officials blocked cellphone reception in San Francisco train stations for three hours to disrupt planned demonstrations over a police shooting.

Officials with the Bay Area Rapid Transit system, better known as BART, said Friday that they turned off electricity to cellular towers in four stations from 4 p.m. to 7 p.m. Thursday. The move was made after BART learned that protesters planned to use mobile devices to coordinate a demonstration on train platforms.

The tactic drew comparisons to those used by the former president of Egypt to squelch protests demanding an end to his authoritarian rule. Authorities there

cut Internet and cellphone services in the country for days earlier this year. "BART officials are showing themselves to be of a mind with the former president of Egypt, Hosni Mubarak," the Electronic Frontier Foundation said on its website.

The American Civil Liberties Union criticized the tactic, saying on its blog that it was the "wrong response to political protests."

BART officials were confident the cellphone disruptions were legal. They said in a statement that it's illegal to demonstrate on the platform or aboard the trains, and that it has set aside special areas for demonstrations.

The demonstration planned Thursday failed to develop. "We had a commute that was safe and without disruption," said BART spokesman Jim Allison.

The demonstrators were protesting the July 3 shooting of Charles Blair Hill by BART police, who claimed Hill came at them with a knife. Several people were arrested when a July 11 demonstration disrupted service during the rush-hour commute and prompted the closing of BART's Civic Center station.

Attachment N1: [afteraction8-11.doc](#)

FYI for Monday's plans, Sgt. Pashoian wrote an excellent AAR from the SWAT perspective. The information will be valuable in developing future plans. Equipment staging in the SWAT truck is an easy fix if we can leave the truck in a secure location like the Fed parking lot.

Subject: Anonymous Protest Call

Sir:

As per our discussion, the following is the text of the Anonymous call for a protest tomorrow at Civic Center Station. It specifically states it will be a peaceful protest.

This is a message from Anonymous to the Bay Area Rapid Transit System (BART)

TO THE PEOPLE OF THE USA:

The past year has brought about some substantial awareness through some unfortunate events that have occurred throughout our world. From internet censorship to the unnecessary violence inflicted upon unarmed civilians, weâ€™ve all seen what can happen once a portion of us are gagged. In Egypt and Tunisia, we saw people struggling to make their voices heard. We have seen companies such as Telecomix delve into the nastiness of political corruption in an attempt to free those censored individuals from their prisons of silence. We seen social media such as FaceBook and twitter explode with users from around the world speaking out against censorship. Today, weâ€™ve seen America come alive. In the Bay Area, weâ€™ve seen people gagged, and once more, Anonymous will attempt to show those engaging in the censorship what it feels like to be silenced. #OpBART is an operation geared toward balance - toward learning. You do not censor people because they wish to speak out against the wrongs the wrongful things occurring around them. The Bay Area Rapid Transit has made the conscious decision of ordering various cell phone companies to terminate services for the downtown area inhibiting those in the area from using cell phones - even in the case of an emergency.

To BART:

We will not tolerate censorship.

We will do everything in our power (we are legion) to parallel the actions of censorship that you have chosen to engage in.

We will be free to speak out against you when you try to cover up crimes, namely on behalf of those who have engaged in violence against a mostly unarmed public.

We will set those who have been censored free from their silence. That's a promise.

Anonymous demands that this activity revolving around censorship cease and desist and we know you are already planning to do this again.

We will not issue any more warnings.

TO THE PEOPLE OF SAN FRANCISCO:

People of San Francisco, join us Monday, August 15th at 5pm for a peaceful protest at Civic Center station to illustrate the solidarity with people we once knew and to stand up for your rights and those of your fellow citizens. We will be wearing "blood" stained shirts for remembrance to the blood that is on the hands of the BART police. (Protest flier)

For the people outside of San Francisco, show solidarity by using black fax, email bombs, and phone calls to the BART Board of Directors. BART decided to cut off your communications and now we will flood theirs.

We request that you bring cameras to record further abuses of power by the police and to legitimize the protest. The media will certainly spin this in an attempt to make our actions appear to be violent or somehow harmful to the citizenry at large. Remember, this is a peaceful protest. Any actions trying to incite violence in our protest are not of our people, and they ought to be discouraged.

We are Anonymous,

We are legion,

We never forgive,

We never forget,

Expect us.

There appears to be a planned protest at the Civic Center BART station on Monday, August 15, 2011 at 1700 hrs. The group Anonymous is upset over the recent cell phone shut off at BART on August 11, 2011. See the attached web page:

<http://youranonnews.tumblr.com/>

I'm not totally sure who this group is or what influence they have in gathering participants in this protest. For what I can tell, Anonymous is a group of hackers who collectively go after institutions, companies and governments by means of cyber attack. Supposedly, they have been successful in some of there "Ops." The forthcoming BART protest is labelled, "OpBART." Recently, Anonymous has been in the news threatening to "kill" Facebook on November 5, 2011. Their motto is, "We are Anonymous, We are legion, We never forgive, We never forget, Expect us."

If the above link does not take you to "OpBART", the following should:

Update on the latest news, sports, business and entertainment:

NECN

But BART's deputy police chief says it was about protecting the safety of the public. And a BART spokesman says the disruptions were legal, since the agency owns the property and the infrastructure.

>> Officials interrupt cellphone reception in SF train stations to disrupt planned protest

>>

>> Â¶ SAN FRANCISCO (AP) _ Transit officials said Friday that they blocked cellphone reception in San Francisco train stations for three hours to disrupt planned demonstrations over a police shooting.

>>

>> A¶ Officials with the Bay Area Rapid Transit system, better known as BART, said they turned off electricity to cellular towers in four stations from 4 p.m. to 7 p.m. Thursday. The move was made after BART learned that protesters planned to use mobile devices to coordinate a demonstration on train platforms.

>>

>> Â¶ "A civil disturbance during commute times at busy downtown San Francisco stations could lead to platform overcrowding and unsafe conditions for BART customers, employees and demonstrators," BART officials said in a prepared statement.

>>

>> Â¶ The statement noted that it's illegal to demonstrate on the platform or aboard the trains. BART said it has set aside special areas for demonstrations.

>>

>> Â¶ The American Civil Liberties Union questioned the tactic.

>>
>> "Shutting down access to mobile phones is the wrong response to political protests," the ACLU's Rebecca Farmer said in a blog post.
>>
>> The Electronic Frontier Foundation said on its website that "BART officials are showing themselves to be of a mind with the former president of Egypt, Hosni Mubarak." Mubarak's regime cut Internet and cellphone services in the country for days early this year while trying to squelch protests demanding an end to his authoritarian rule.
>>
>> BART officials were confident the cellphone disruptions were legal. The demonstration planned Thursday failed to develop.
>>
>> "We had a commute that was safe and without disruption," said BART spokesman Jim Allison.
>>
>> The demonstrators were protesting the July 3 shooting of Charles Blair Hill by BART police who claimed Hill came at them with a knife.
>>
>> A July 11 demonstration disrupted service during the rush-hour commute, prompting the closing of BART's Civic Center station. Several arrests were made.

Subject: Anonymous Protest Call

Sir:

As per our discussion, the following is the text of the Anonymous call for a protest tomorrow at Civic Center Station. It specifically states it will be a peaceful protest.

----- Original Message -----

This is a message from Anonymous to the Bay Area Rapid Transit System (BART)

TO THE PEOPLE OF THE USA:

The past year has brought about some substantial awareness through some unfortunate events that have occurred throughout our world. From internet censorship to the unnecessary violence inflicted upon unarmed civilians, weâ€™ve all seen what can happen once a portion of us are gagged. In Egypt and Tunisia, we saw people struggling to make their voices heard. We have seen companies such as Telecomix delve into the nastiness of political corruption in an attempt to free those censored individuals from their prisons of silence. We seen social media such as FaceBook and twitter explode with users from around the world speaking out against censorship. Today, weâ€™ve seen America come alive. In the Bay Area, weâ€™ve seen people

gagged, and once more, Anonymous will attempt to show those engaging in the censorship what it feels like to be silenced. #OpBART is an operation geared toward balance - toward learning. You do not censor people because they wish to speak out against the wrongs the wrongful things occurring around them. The Bay Area Rapid Transit has made the conscious decision of ordering various cell phone companies to terminate services for the downtown area inhibiting those in the area from using cell phones - even in the case of an emergency.

To BART:

We will not tolerate censorship.

We will do everything in our power (we are legion) to parallel the actions of censorship that you have chosen to engage in.

We will be free to speak out against you when you try to cover up crimes, namely on behalf of those who have engaged in violence against a mostly unarmed public.

We will set those who have been censored free from their silence. Thatâ€™s a promise.

Anonymous demands that this activity revolving around censorship cease and desist and we know you are already planning to do this again.

We will not issue any more warnings.

TO THE PEOPLE OF SAN FRANCISCO:

People of San Francisco, join us Monday, August 15th at 5pm for a peaceful protest at Civic Center station to illustrate the solidarity with people we once knew and to stand up for your rights and those of your fellow citizens. We will be wearing â€œbloodâ€ stained shirts for remembrance to the blood that is on the hands of the BART police. (Protest flier)

For the people outside of San Francisco, show solidarity by using black fax, email bombs, and phone calls to the BART Board of Directors. BART decided to cut off your communications and now we will flood theirs.

We request that you bring cameras to record further abuses of power by the police and to legitimize the protest. The media will certainly spin this in an attempt to make our actions appear to be violent or somehow harmful to the citizenry at large. Remember, this is a peaceful protest. Any actions trying to incite violence in our protest are not of our people, and they ought to be discouraged.

We are Anonymous,

We are legion,

We never forgive,

We never forget,

Expect us.

There appears to be a planned protest at the Civic Center BART station on Monday, August 15, 2011 at 1700 hrs. The group Anonymous is upset over the recent cell phone shut off at BART on August 11, 2011. See the attached web pages:

<http://youranonnews.tumblr.com/post/8850132926/this-is-a-message-from-anonymous-to-the-bay-area-rapid>
<http://youranonnews.tumblr.com/>

The Police Department will be deploying extra personnel and responding to this protest in similar fashion to the last one on last Thursday.

The group Anonymous is a group of hackers who collectively go after institutions, companies and governments by means of cyber attack. Supposedly, they have been successful in some of there "Ops." The forthcoming BART protest is labelled, "OpBART." Recently, Anonymous has been in the news threatening to "kill" Facebook on November 5, 2011. Their motto is, "We are Anonymous, We are legion, We never forgive, We never forget, Expect us."

Contact me if you have any further questions about the above action.

We have 4 people on duty during the expected time frame. I think this is a good number. We will have Robert on the service channel with the others providing support to the main channel. I am GUESSING you may be asked to stay but this email Chlebowski sent is the first I heard about it. I will email everyone like I did before on what we will be doing. I am going to email you the rosters I created for this past Thursday in case you want to use them. If they infect our system, 10 people on duty won't make a difference..... if you want more people we can always hold over Gina or KK or post the shift. eamonn may come in.

Subject: Planned Protest at Civic Center Station, Monday, 8/15/11
Date: 8/13/2011 7:51:11 PM

To All Concerned:

We have learned that the "hacktivist" group Anonymous plans to conduct a protest at Civic Center Station on Monday, 8/15/11, at 1700 hours. The group is posting this as a peaceful protest over the shutdown of wireless service in our downtown San Francisco stations during the protest last Thursday. The "No Justice, No BART" group may elect to join this effort, although we have no confirmation of that at this point. Their announced protest on Thursday failed to materialize, for unknown reasons. We will once again deploy our crowd control team to police the protest.

The Anonymous postings are located on their website (<http://youranonnews.tumblr.com>) and on IndyBay.org.

Deputy Chief Ben Fairow will be our Incident Commander for the event. His direct number is (510) 464-7054.

To: Robert Lowell, Kimberly Alameda, Janet Strange, Kimberly Roenick, Rosemarie Oliva
Subject: Protest CCS Monday, August 15, 2011 at 1700 hrs
Date: 8/13/2011 8:00:54 PM

There is a protest expected on Monday 8-15-11. The details are sparse so far but more will be out Sunday and Monday morning/early afternoon. Below is an email LT Chlebowski sent out with a few of these details. The link is unavailable (youtube) but the gist of it is in the email. The only thing I can see being a possible issue (besides the protest itself) is they are asking people to bombard the Board of Director's offices with phone calls..... only problem with that idea is the offices are closed at 1700.... which leads me to think there may be a spike in harassing dispatch phone calls during that time. It is expected that a full tac-team call-out will be used and likely A platoon being held over. This past Thursday, A platoon was held to cover beats while all of B platoon went to downtown SF to provide support. I created 2 rosters, one for the TAC team and one for patrol. I will pass those along to Gary and the WC so they can use them instead of the regular patrol rosters if the same deployment is utilized. A formal OPS order email will be out and I will also send a dispatch specific email for you as well.

Thanks, Jason

Subject: Draft Operations Order for Monday 8/15/11
Date: 8/13/2011 8:38:08 PM

Attachment N1: [081511 SF Protest.docx](#)

I've attached a draft order for the protest on Monday. I've tweaked the one that was done for last Thursday and added a few items. There are some names missing that will hopefully be identified by tomorrow.

Arrangements need to be made for 2 or 3 vans for Monday. I recommend that the SIMS requal that is scheduled for Monday afternoon be canceled.

A command officer needs to be identified to be the Tactical commander for SF, as I understand Lt. Franklin will not be available Monday.

I have save this draft on the G drive, in the Tactical Team folder, for any revisions that need to be made.

Just a heads up for you since you will not be here tomorrow. You will be on the service channel again. During Thursday's "protest" I made it clear during briefing that EVERYONE needed to be on Service, including command staff. I instructed Wendy, who was on the main channel, to tell anyone (ANYONE) who asks for info on the event on the main channel to switch to service and not try to find info or yell across the room or anything like that. It worked very well. I expect it won't be perfect but I expect it to be better than your last experience. I will CC you on all the emails I send on this and might need you in the tac-briefing. I will do my best to set up everything in advance so gary just has to dot I's and cross T's.... I will also send you a summary of this past Thursday so you know what went on with Eamonn (who was on Service). I REALLY hate when these don't go as planned and this past Thursday it did. We just need gary to make sure it runs the same....

Protest CCS Monday, August 15, 2011 at 1700 hrs

There is a protest expected on Monday 8-15-11. The details are sparse so far but more will be out Sunday and Monday morning/early afternoon. Below is an email LT Chlebowski sent out with a few of these details. The link is unavailable (youtube) but the gist of it is in the email. The only thing I can see being a possible issue (besides the protest itself) is they are asking

people to bombard the Board of Director's offices with phone calls..... only problem with that idea is the offices are closed at 1700.... which leads me to think there may be a spike in harassing dispatch phone calls during that time. It is expected that a full tac-team call-out will be used and likely A platoon being held over. This past Thursday, A platoon was held to cover beats while all of B platoon went to downtown SF to provide support. I created 2 rosters, one for the TAC team and one for patrol. I will pass those along to Gary and the WC so they can use them instead of the regular patrol rosters if the same deployment is utilized. A formal OPS order email will be out and I will also send a dispatch specific email for you as well.

Thanks, Jason

Protest CCS Monday, August 15, 2011 at 1700 hrs

Jason, FYI and we'll need to deploy personnel in the ISRC as we did for the protest last Thursday.

There appears to be a planned protest at the Civic Center BART station on Monday, August 15, 2011 at 1700 hrs. The group Anonymous is upset over the recent cell phone shut off at BART on August 11, 2011. See the attached web page:

<http://youranonnews.tumblr.com/>

I'm not totally sure who this group is or what influence they have in gathering participants in this protest. For what I can tell, Anonymous is a group of hackers who collectively go after institutions, companies and governments by means of cyber attack. Supposedly, they have been successful in some of there

"Ops." The forthcoming BART protest is labelled, "OpBART." Recently, Anonymous has been in the news threatening to "kill" Facebook on November 5, 2011. Their motto is, "We are Anonymous, We are legion, We never forgive, We never forget, Expect us."

We have 4 people on duty during the expected time frame. I think this is a good

number. We will have Robert on the service channel with the others providing support to the main channel. I am GUESSING you may be asked to stay but this email Chlebowski sent is the first I heard about it. I will email everyone like

I did before on what we will be doing. I am going to email you the rosters I created for this past Thursday in case you want to use them. If they infect our

system, 10 people on duty won't make a difference..... if you want more people

we can always hold over Gina or KK or post the shift. eamonn may come in.

BART's cellphone shutdown draws group's ire

The shadowy protest group known as Anonymous is planning a protest for rush hour Monday at the Civic Center BART station following a false start Thursday that prompted agency officials to controversially shut down underground cellphone service to prevent protesters from communicating about police locations. On its website Saturday, the group said the newly scheduled action is again aimed at shootings by BART police officers, and that protesters will be wearing blood-stained shirts Monday "for remembrance to the blood that is on the hands of the BART police." Police were out in force Thursday at the Civic Center station in preparation for a protest that never materialized, with one officer telling The San Francisco Examiner that it was an "epic fail."

City pension system drowning in red ink

There was a time when San Francisco was fortunate enough to have a healthy and thriving pension investment fund that covered its annual pension contribution tab. The fund had been performing so well that The City even decided in 1996 to begin paying the pension contributions of its employees. Times were good. But then, things took a turn for the worse in the mid-2000s, culminating in the economic collapse of 2008, which sent San Francisco's portfolio into a tailspin. The pension investment fund took a \$4 billion hit, and The City was forced to start contributing hundreds of millions of dollars to pension costs using its annual revenues that pay for basic services such as police, fire, parks and roads. In 2004, The City began negotiating with unions for their members to begin contributing to their pensions again.

Hospital, city still far apart on Cathedral Hill

The complex battle over a proposed 555-bed hospital on Cathedral Hill has gone on for six years, and the latest negotiations between California Pacific Medical Center and The City are likely to make it last even longer. The nonprofit CPMC, San Francisco's largest private hospital, wants to construct the \$1.9 billion facility in a heavily trafficked area on the edge of the Tenderloin neighborhood. It also wants to rebuild the aging St. Luke's Hospital in the Mission district with scaled-back service and fewer beds.

Public defender last-minute entry into mayor's race

The surprise entry into the mayoral race by Public Defender Jeff Adachi on Friday shook up yet again the campaign for The City's top elected post. Adachi's decision comes on the heels of interim Mayor Ed Lee announcing earlier in the week that he would compete for a full four-year term in the November election. Like Lee, Adachi had long denied he would run for mayor. "Just when you think it couldn't get weirder," said political consultant Jim Ross, who is not working for any of the candidates.

email: shapnup@yahoo.com phone:
Subject: I SUPPORT: Cutting off cell phone service/managingI protests
Feedback: Hello,

I am a daily commuter to San Francisco. I wanted to weigh in on the issue of your policy decision to cut off cell phone service to effectively manage protests. First of all, I SUPPORT your decision to do this. Although I noticed the service disruption last Thursday when commuting home from Civic Center station, I found the minor inconvenience inconsequential and favorable to serving the greater public good by preventing communications between instigators and agitators.

I work in law enforcement, and saw your tactic of interfering with communications in that manner as "Brilliant". Please continue your aggressive stance towards the disruptions to our transit system have been recently subjected to.

Lastly, feel free to contact me at any time if you require any mean of support or further comment.

/Wesley Hester Jr

Hi James,

I am trying to generate some possible talking points on our end. Do you have talking points regarding what measures BART is taking regarding these potential cyberattacks? I saw that Fullerton PD is also getting threats of network disruptions down in Southern California.

Regards,

Julie

Anonymous will take the following actions over the next 48 hours.

1) We have begun at once a massive Black Fax and E-Mail Bomb action, where we will fill every inbox and fax machine at BART with thousands of copies of our message that this outage was unacceptable.

2) Tomorrow, Sunday - August 14, 2011 at High Noon Pacific Time we, Anonymous - will remove from the internet the web site of BART located at www.bart.gov<<http://www.bart.gov>> for exactly six hours. Thatâ€™s twice as long as they shut off the cell phones for.

3) On Monday - August 15, 2011 at 5:00 PM Pacific Time there will be a physical protest at the Civic Center BART Station. Expect us !

We sincerely hope that this series of actions will serve as a warning to BART and every public organization in the USA to NOT engage in this sort of dangerous and human rights violating behavior.

Subject: Possible Cyber Attack on SF BART on Monday

FYI, I received a call from the Director of Comms (Linton Johnson) for the California Bay Area Rapid System (BART) notifying me of a possible cyber attack on their rail system on Monday at 5pm.

According to Linton, the FBI's SF Joint Terrorism Task Force and BART reportedly believe this is a "credible threat." It is unknown at this time how much of a disruption may occur.

The Deputy Director of Comms for BART (James Allison) is working on the issue with Julianne Sohn, SF FBI comms.

Can anyone shed any additional information about the threat?

To: Marcia deVaughn Work <mdevaug@bart.gov>, Sherwood Wakeman Work<swakema@bart.gov>
Subject: FW: statement
Date: 8/14/2011 10:00:59 AM

Marcia and Sherwood,

Below is the statement we have posted on bart.gov at 8:30 am this morning. Below our statement is the most recent posting from Anonymous regarding thier inention to shut down bart.gov beginning noon today.

Update on potential interruption to BART's website and other online services
BART's online services including web, mobile web, email and SMS are used by nearly 2 million customers every month. We're disappointed to announce that the BART website may be subject to an online attack today, Sunday August 14, between noon and 6 pm, because this action will directly affect those customers who depend upon our site, as well as the developers who use BART's open data services to serve BART customers.
We're doing what we can to defend against any attack on the BART website. BART's website infrastructure is wholly separate from any computer network involved in the operation of BART service. In the event that bart.gov is not available or working as you'd expect, we encourage you to use the 511.org website for alternative transit information.

Updated 8:48 am Sunday, August 14, 2011

Statement notifying BART customer services to prepare for any potential impact -- I have notified MTC and they are planning accordingly for 511 impacts today and tomorrow:

This is just a brief release to clarify for the media what to expect from Anonymous on this Op. There is a more thorough Press Release from us here - <http://tumblr.com/xjh42d529q>

Anonymous will take the following actions over the next 48 hours.

1) We have begun at once a massive Black Fax and E-Mail Bomb action, where we will fill every inbox and fax machine at BART with thousands of copies of our message that this outage was unacceptable.

2) Tomorrow, Sunday - August 14, 2011 at High Noon Pacific Time we, Anonymous - will remove from the internet the web site of BART located at www.bart.gov for exactly six hours. That's twice as long as they shut off the cell phones for.

3) On Monday - August 15, 2011 at 5:00 PM Pacific Time there will be a

physical protest at the Civic Center Bart Station. Expect us !
We sincerely hope that this series of actions will serve as a warning to BART
and every public organization in the USA to NOT engage in this sort of
dangerous and human rights violating behavior.

Subject: Possible Cyber Attack on SF BART on Monday

FYI, I received a call from the Director of Comms (Linton Johnson) for the California Bay Area Rapid System (BART) notifying me of a possible cyber attack on their rail system on Monday at 5pm.

According to Linton, the FBI's SF Joint Terrorism Task Force and BART reportedly believe this is a "credible threat." It is unknown at this time how much of a disruption may occur.

The Deputy Director of Comms for BART (James Allison) is working on the issue with Julianne Sohn, SF FBI comms.

Can anyone shed any additional information about the threat?

Hi julianne

I don't have any talking points yet, I am just staying very high level, simply saying bart.gov is an important tool for our customers and we hope to continue to make it available to them. when asked about threats to flood emails, faxes, etc., i simply say i personally haven't noticed anything. You should know that NBC11 asked me directly if the FBI knew and I said "yes." I have tentatively scheduled a 3:30 interview with them in Oakland. They may attempt to call you. Let me know if i can help.

There is a more thorough Press Release from us here - <[http://tumblr.com/xjh42d529q](http://youranonnews.tumblr.com/post/8894155866/This%20is%20just%20a%20brief%20release%20to%20clarify%20for%20the%20media%20what%20to%20expect%20from%20Anonymous%20on%20this%20Op.%20There%20is%20a%20more%20thorough%20Press%20Release%20from%20us%20here%20-%20http://tumblr.com/xjh42d529q%20%20Anonymous%20will%20take%20the%20following%20actions%20over%20the%20next%2048%20hours.%20%201)%20We%20have%20begun%20at%20once%20a%20massive%20Black%20Fax%20and%20E-Mail%20Bomb%20action,%20where%20we%20will%20fill%20every%20inbox%20and%20fax%20machine%20at%20BART%20with%20thousands%20of%20copies%20of%20our%20message%20that%20this%20outage%20was%20unacceptable.%20%202)%20Tomorrow,%20Sunday%20-%20August%2014,%202011%20at%20High%20Noon%20Pacific%20Time%20we,%20Anonymous%20-%20will%20remove%20from%20the%20internet%20the%20web%20site%20of%20BART%20located%20at%20www.bart.gov%20for%20exactly%20six%20hours.%20That's%20twice%20as%20long%20as%20they%20shut%20off%20the%20cell%20phones%20for.%20%203)%20On%20Monday%20-%20August%2015,%202011%20at%205:00%20PM%20Pacific%20Time%20there%20will%20be%20a%20physical%20protest%20at%20the%20Civic%20Center%20Bart%20Station.%20Expect%20us%20!%20%20We%20sincerely%20hope%20that%20this%20series%20of%20actions%20will%20serve%20as%20a%20warning%20to%20BART%20and%20every%20public%20organization%20in%20the%20USA%20to%20NOT%20engage%20in%20this%20sort%20of%20dangerous%20and%20human%20rights%20violating%20behavior.%20%20We%20Are%20Anonymous%20-%20We%20Are%20Everywhere%20-%20We%20Are%20Legion%20-%20We%20Never%20Forget%20-%20We%20Never%20Forgive%20-%20EXPECT%20%20US> <a href=)

Anonymous will take the following actions over the next 48 hours.

1) We have begun at once a massive Black Fax and E-Mail Bomb action, where we will fill every inbox and fax machine at BART with thousands of copies of our message that this outage was unacceptable.

2) Tomorrow, Sunday - August 14, 2011 at High Noon Pacific Time we, Anonymous - will remove from the internet the web site of BART located at www.bart.gov<<http://www.bart.gov>> for exactly six hours. Thatâ€™s twice as long as they shut off the cell phones for.

3) On Monday - August 15, 2011 at 5:00 PM Pacific Time there will be a physical protest at the Civic Center Bart Station. Expect us !

We sincerely hope that this series of actions will serve as a warning to BART and every public organization in the USA to NOT engage in this sort of dangerous and human rights violating behavior.

We Are Anonymous - We Are Everywhere - We Are Legion - We Never Forget - We Never Forgive - EXPECT US

Subject: Possible Cyber Attack on SF BART on Monday

FYI, I received a call from the Director of Comms (Linton Johnson) for the California Bay Area Rapid System (BART) notifying me of a possible cyber attack on their rail system on Monday at 5pm.

According to Linton, the FBI's SF Joint Terrorism Task Force and BART reportedly believe this is a "credible threat." It is unknown at this time how much of a disruption may occur.

The Deputy Director of Comms for BART (James Allison) is working on the issue with Julianne Sohn, SF FBI comms.

Can anyone shed any additional information about the threat?

We have begun at once a massive Black Fax and E-Mail Bomb action, where we will fill every inbox and fax machine at BART with thousands of copies of our message that this outage was unacceptable.

Tomorrow, Sunday - August 14, 2011 at High Noon Pacific Time we, Anonymous - will remove from the internet the web site of BART located at www.bart.gov for exactly six hours. That's twice as long as they shut off the cell phones for.

On Monday - August 15, 2011 at 5:00 PM Pacific Time there will be a physical protest at the Civic Center Bart Station. Expect us !

We sincerely hope that this series of actions will serve as a warning to BART and every public organization in the USA to NOT engage in this sort of dangerous and human rights violating behavior.

We Are Anonymous - We Are Everywhere - We Are Legion - We Never Forget - We Never Forgive - EXPECT US

Linton, Jim, Others, I received this update about an hour ago from Kristin Royster, DHS National Cyber Security Division:

All,

US-CERT has been in contact with BART (including the BART webmaster). If they see activity tomorrow, they will provide info to US-CERT.

US-CERT was advised that the MS-ISAC (Multi-State Information Sharing and Analysis Center which helps state governments with cybersecurity) is aware and ready to provide support and that the FBI is aware.

The BART representatives thanked US-CERT for contacting them and will keep US-CERT updated as warranted.

Thanks,
Kristin

Name: Victor Gee
email: vgee48@astound.net phone:
Subject: Cyber attack and Planned protest
Feedback: San Francisco -- An international group of hackers threatened Saturday to wage a cyber war against BART in retaliation for the agency's decision to cut cell phone service to prevent a separate protest last week. The activist group, known as Anonymous, also called for a nonviolent protest Monday evening at BART's Civic Center Station.

Dear BART,

I would certainly hope you are prepare for hacking against your agency and you have sufficient technical support in your IT department to prevent your system from being overwhelm to prevent affecting train services throughout your system.

Although I am just one voice, I, for one, support your decision to shut down cell service within your BART stations to disrupt train services and protect the safety of passengers from planned protest on crowded stations occupy by paying patron trying to go home. Please donâ€™t let activists dominate your decision-making and your safety concerns for all the normal patrons that use your service. And to BART Police Department, please make your present be seen and known. If there is a planned protest and should trains services be disrupted by these protesters, donâ€™t hesitate to arrest them. Use whatever means to provide normal service to the paid patrons. Good luck in your endeavor and be safe.

Thank you,

Subject: RE: update on Possible Cyber Attack on SF BART

Linton, Jim, Others, I received this update about an hour ago from Kristin Royster, DHS National Cyber Security Division:

All,

US-CERT has been in contact with BART (including the BART webmaster). If they see activity tomorrow, they will provide info to US-CERT.

US-CERT was advised that the MS-ISAC (Multi-State Information Sharing and Analysis Center which helps state governments with cybersecurity) is aware and ready to provide support and that the FBI is aware.

The BART representatives thanked US-CERT for contacting them and will keep US-CERT updated as warranted.

Thanks,
Kristin

Thank you Jim for the update on how they plan to remove our www.bart.gov
from the public at noon for six hours.

Stanley, presumably, the FBI is on this? Do we need a conference call?

Hi Jim,

KCBS reached out to me. At this point, we are really limited in what we can say beyond that BART has contacted us regarding the cyber attack.

If I get additional inquiries, I will let you know.

Regards,
Julie

Linton, Jim, Others, I received this update about an hour ago from Kristin Royster, DHS National Cyber Security Division:

All,

US-CERT has been in contact with BART (including the BART webmaster). If they see activity tomorrow, they will provide info to US-CERT.

US-CERT was advised that the MS-ISAC (Multi-State Information Sharing and Analysis Center which helps state governments with cybersecurity) is aware and ready to provide support and that the FBI is aware.

The BART representatives thanked US-CERT for contacting them and will keep US-CERT updated as warranted.

Thanks,
Kristin

Subject: Question for DHS & FBI
Date: 8/14/2011 4:27:55 PM

Hi Julie and Stanley,

Hypothetically, if BART were to ask DHS or the FBI to launch a full investigation into these cyber terrorists, what would / could DHS or the FBI realistically do and what would your public response be?

While the previous question was not a formal request for an investigation, I am officially asking what your best advice is for BART to do both behind the scenes and publically. Your thoughts?

Hi Jim,

KCBS reached out to me. At this point, we are really limited in what we can say beyond that BART has contacted us regarding the cyber attack.

If I get additional inquiries, I will let you know.

Regards,
Julie

SF BART

Linton, Jim, Others, I received this update about an hour ago from Kristin
Royster, DHS National Cyber Security Division:

All,

US-CERT has been in contact with BART (including the BART webmaster). If
they
see activity tomorrow, they will provide info to US-CERT.

US-CERT was advised that the MS-ISAC (Multi-State Information Sharing and
Analysis Center which helps state governments with cybersecurity) is aware
and
ready to provide support and that the FBI is aware.

The BART representatives thanked US-CERT for contacting them and will keep
US-CERT updated as warranted.

Thanks,
Kristin

>
> Story posted 2011.08.14 at 03:12 PM PDT
>
>
> A marketing website for BART, MyBart.org, was hacked today and data for
hundreds of users was stolen and posted to the Internet. The stolen data
included names, addresses, phone numbers and passwords.
>
> "We are working to mitigate the attack," BART spokesman Jim Allison said.
"We're also working to notify the people whose information has been breached."
>
> The hacker protest group "Anonymous" took credit for the attack, and posted
links to the stolen user data on its Twitter account. It also posted contact
information for BART employees on its website and encouraged its members to
flood them with emails and phone calls.
>
> Allison said that BART is working with federal officials to respond to the
attacks and to prevent any future security breaches. He said that any
MyBART.org users that have had their information stolen should not open any
unsolicited emails and immediately change any passwords that my have been
shared with their MyBART.org account.
>
> The MyBART.org website was defaced using the logo of Anonymous and to add a
link to its Twitter account. The site is normally used for marketing,
announcing and deals near BART stations, and sends subscribers regular emails.
>
> As of 2:30 p.m., BART's main website, bart.gov was still accessible. Allison
said that if BART's website did go down, travelers are recommended to use
511.org for transit information.
>
> Allison also noted that BART's website infrastructure is not at all
connected to the computer systems that run the trains themselves, and that the
web attacks would not result in any service delays.
>
> Another website not associated with BART, Californiaavoid.org was also
hacked with the logo of Anonymous and to add fake news stories containing
racial slurs. California AVOID is a state-sponsored partnership of law
enforcement organizations to prevent drunk driving.
>
> Anonymous announced its intention to hack BART websites in a posting on its

website. The shadowy hacker group said that it is already engaged in a phone, email and fax campaign to disrupt BART's operations, and that there will be a live protest in the Civic Center BART station Monday at 5 p.m.

>

> The hacking attacks and protest are in response to BART's interruption of wireless cell phone service in several downtown San Francisco BART stations to prevent a disruptive protest on Thursday.

>

> Last week BART announced on its website that it was anticipating demonstrations on the BART platforms in August. Commuters were "advised that protesters may attempt to disrupt train service during August commute periods beginning as early as Thursday, August 11, 2011, in downtown San Francisco BART stations."

>

> On July 11, protesters prevented trains from leaving the Civic Center BART station in response to the July 3 BART police shooting of Charles Hill in the same station. Protesters blocked the train doors and one even climbed on top of a train.

>

> The Civic Center, Powell Street and 16th Street BART stations were all temporarily closed due to the protest. As a precautionary measure on Thursday, BART temporarily suspended wireless cell phone service in several downtown San Francisco BART stations.

>

> "They were clear in stating they could use mobile devices to organize," Allison said. He said protesters intended to use cell phones to communicate about the number and location of BART police.

>

> While the protest never materialized, Allison said he did not know if that was an effect of disrupting cell phone service in the stations.

>

> The move has been widely criticized and reported worldwide, provoking further protest announcements and statements of disapproval from Bay Area public officials. Mayoral candidate Phil Ting released a statement Saturday that said the move violated fundamental principles of democracy. "The decision was made at the very highest staff level of the agency," Ting's statement said. "Censorship is not, and must not become, a public safety tool."

>

> State Sen. Leland Yee also released a statement blasting BART officials for their decision. "I am shocked that BART thinks they can use authoritarian control tactics," he said. "BART's decision was not only a gross violation of free speech rights; it was irresponsible and compromised public safety."

>

> The planned actions against BART have been widely discussed on Twitter using the hashtags .OPBart and .MuBARTek, a reference to deposed Egyptian President Hosni Mubarek, who reportedly disrupted Internet and wireless communications to stifle growing protests in Egypt. As of 11 a.m. today, over 100 people said they would be attending Monday's protest on a Facebook announcement.

>

> Allison said no decision has been reached on whether BART will further disrupt cell phone services for Monday's demonstrations. "The top priority for us is the safety of our passengers. We'll be taking steps to try to make sure our customers get home safely," he said, but did not specify what those steps may be.

>

> He said that BART allows for protests in the station, but outside the fare gates. "We firmly believe in free speech, that's why we have an expressive activities program that allows for activities outside the fare gates, where it's safe," Allison said.

Subject: It Couldn't Happen to a Nicer Organization
Date: 8/14/2011 5:02:46 PM

The infamous international hacker network ' Anonymous ' has announced it is taking action against BART after revelations that San Francisco's transit system deliberately blocked cell phone service for three hours in an effort to disrupt possible protests.

According to a press release from Anonymous' website, the group plans to shut down BART's official website, stage an organized protest Monday and bombard BART's email and fax machines:

Anonymous will take the following actions over the next 48 hours.

1) We have begun at once a massive Black Fax and E-Mail Bomb action, where we will fill every inbox and fax machine at BART with thousands of copies of our message that this outage was unacceptable.

2) Tomorrow, Sunday - August 14, 2011 at High Noon Pacific Time we, Anonymous - will remove from the internet the web site of BART located at www.bart.gov for exactly six hours. That's twice as long as they shut off the cell phones for.

3) On Monday - August 15, 2011 at 5:00 PM Pacific Time there will be a physical protest at the Civic Center Bart Station. Expect us !We sincerely hope that this series of actions will serve as a warning to BART and every public organization in the USA to NOT engage in this sort of dangerous and human rights violating behavior.

The revelations that BART blocked commuters' cell phone service has sparked outrage among civil liberties activists. "The government shouldn't be in the business of cutting off the free flow of information," said Michael Risher , the American Civil Liberty Union's Northern California staff attorney. "Shutting down access to mobile phones is the wrong response to political protests, whether it's halfway around the world or right here in San Francisco."

BART warned early Thursday of possible protesters gathering to demonstrate against the police shooting of Charles Hill last month. The protests never

materialized, but BART police swarmed downtown San Francisco stations Thursday afternoon in addition to suspending cell phone service.

'Anonymous' further critiqued the actions of BART in a separate press release, stating, "In the Bay Area, we've seen people gagged, and once more, Anonymous will attempt to show those engaging in the censorship what it feels like to be silenced. #OpBART is an operation geared toward balance - toward learning. You do not censor people because they wish to speak out against the wrongs the wrongful things occurring around them. The Bay Area Rapid Transit has made the conscious decision of ordering various cell phone companies to terminate services for the downtown area inhibiting those in the area from using cell phones - even in the case of an emergency."

BART officials have maintained that their decision to suspend service hinged on the safety of commuters , who would have been drastically affected by organized protests during the heart of rush hour.

Potentially Big Protests Planned on BART By Lori PreuittNBCBayArea.com updated 35 minutes ago 2011-08-14T23:45:30 It could be a bumpy ride on BART Monday. The group "Anonymous" is promised to disrupt all things BART related. That includes a phone, website, email and fax campaign to disrupt operations, as well as a protest at the Civic Center station at the height of the Monday evening commute. The group apparently was able to at least change the company's website. Around noon, the BART website showed logos from "Anonymous" instead of the normal information. Monday's planned actions are using the Twitter hashtags #MuBARTek, which is a reference to deposed Egyptian President Hosni Mubarek, who reportedly disrupted Internet and wireless communications to stop protests in Egypt. This all follows a move by BART last week to temporarily shut down cell phone service in several stations in the City during another protest. BART said it was a precautionary measure to temporarily suspended wireless cell phone service in several downtown stations last Thursday. "They were clear in stating they could use mobile devices to organize," spokesman Jim Allison said. He said it still had not been decided if BART would shut down cell phones again Monday. From Anonymous: Anonymous will take the following actions over the next 48 hours. 1) We have begun at once a massive Black Fax and E-Mail Bomb action, where we will fill every inbox and fax machine at BART with thousands of copies of our message that this outage was unacceptable. 2) Tomorrow, Sunday - August 14, 2011 at High Noon Pacific Time we, Anonymous - will remove from the internet the web site of BART located at www.bart.gov for exactly six hours. That's twice as long as they shut off the cell phones for. 3) On Monday - August 15, 2011 at 5:00 PM Pacific Time there will be a physical protest at the Civic Center Bart Station. Expect us ! We sincerely hope that this series of actions will serve as a warning to BART and every public organization in the USA to NOT engage in this sort of dangerous and human rights violating behavior. The shutting down of cell phones was widely criticized across the Bay Area, the country and even got some press overseas. This weekend, State Senator Leland Yee (D-SF) blasted BART for shutting off cell phone service. "I am shocked that BART thinks they can use authoritarian control tactics," said Yee. "BART's decision was not only a gross violation of free speech rights; it was irresponsible and compromised public safety. Riders need cell phone coverage to call on police and medical personnel during an emergency. How many more lives need to be put at risk because of inappropriate actions by BART officials?" Yee said he also plans to contact the Federal Communications Commission to request an investigation on the constitutionality of the decision. Bay City News contributed to this report. Â

Press Release - Anonymous Operation BART

8:00 PM Saturday - August 13, 2011

This is just a brief release to clarify for the media what to expect from Anonymous on this Op. There is a more thorough Press Release from us here - <http://tumblr.com/xjh42d529q>

Anonymous will take the following actions over the next 48 hours.

1) We have begun at once a massive Black Fax and E-Mail Bomb action, where we will fill every inbox and fax machine at BART with thousands of copies of our message that this outage was unacceptable.

2) Tomorrow, Sunday - August 14, 2011 at High Noon Pacific Time we, Anonymous - will remove from the internet the web site of BART located at www.bart.gov for exactly six hours. That's twice as long as they shut off the cell phones for.

3) On Monday - August 15, 2011 at 5:00 PM Pacific Time there will be a physical protest at the Civic Center Bart Station. Expect us !

We sincerely hope that this series of actions will serve as a warning to

BART and every public organization in the USA to NOT engage in this sort of dangerous and human rights violating behavior.

We Are Anonymous - We Are Everywhere - We Are Legion - We Never Forget - We Never Forgive - EXPECT US

Press Release - Anonymous Operation BART

8:00 PM Saturday - August 13, 2011

This is just a brief release to clarify for the media what to expect from Anonymous on this Op. There is a more thorough Press Release from us here - <http://tumblr.com/xjh42d529q>

Anonymous will take the following actions over the next 48 hours.

- 1) We have begun at once a massive Black Fax and E-Mail Bomb action, where we will fill every inbox and fax machine at BART with thousands of copies of our message that this outage was unacceptable.
- 2) Tomorrow, Sunday - August 14, 2011 at High Noon Pacific Time we, Anonymous - will remove from the internet the web site of BART located at www.bart.gov for exactly six hours. That's twice as long as they shut off the cell phones for.
- 3) On Monday - August 15, 2011 at 5:00 PM Pacific Time there will be a physical protest at the Civic Center Bart Station. Expect us !

We sincerely hope that this series of actions will serve as a warning to BART and every public organization in the USA to NOT engage in this sort of dangerous and human rights violating behavior.

We Are Anonymous - We Are Everywhere - We Are Legion - We Never Forget - We Never Forgive - EXPECT US
